# Executive Summary

At the request of Optasite, Inc (Optasite) Vanasse Hangen Brustlin, Inc. (VHB) conducted an Environmental Site Assessment (ESA) of a proposed wireless telecommunications facility on a portion of the central region of the First Assembly of God Church of Meriden's property (identified herein as the "Site") located at 651 Paddock Avenue, Meriden, Connecticut (identified herein as the "host property").

The ESA was conducted to identify potential areas of environmental concern at and within the vicinity of the Site based on a review of available environmental information and observations of the Site/host property for overt evidence of a release or threat of a release of oil or hazardous materials (OHM). The scope of services for this ESA included a historical review, federal and state environmental database search, state and municipal regulatory file reviews, and a perimeter Site reconnaissance.

This ESA is subject to the terms of the Agreement between VHB and Optasite, as well as the Limitations included in Appendix A. VHB understands that Optasite may enter into a lease agreement with the current owner to construct a telecommunications tower facility on the host property.

## Site Characteristics and Vicinity

The Site, and subject of this assessment, includes a proposed  $\pm 50$ -foot by  $\pm 90$ -foot chain-link fenced-enclosed ground lease compound area located within the central portion of the host property and associated access drive/utilities easement. Optasite is proposing to construct a  $\pm 120$ -foot tall monopole within the compound, attach future carrier antennae at approximately 90-feet, 100-feet, 110-feet, and 120-feet above ground level (AGL) onto the monopole, and install associated ground equipment at the base of the monopole. The proposed access drive/utilities easement will follow an existing asphalt-paved driveway extending in a westerly direction off of Paddock Avenue.

The host property consists of 2.98-acres of land, identified by the City of Meriden Assessor's Office on Map 0906, Block 098D, Lot 0020-0005, currently occupied and owned by the First Assembly of God Church of Meriden. SNET owns a small right of way that transects the southern most boundary of the host property. The host property is located within a primarily residential region of the City of Meriden; residential properties abut the host property to the north, south, east, and west. Wilbur Cross highway also abuts the host property to the west. The residential property located north of the intersection of Paddock Avenue and Miller Avenue,

adjoining the host property to the south, is also owned by the First Assembly of God Church of Meriden and identified as 651 Paddock Avenue on Assessor's Map No. 0906, Block 098D, Lot 0200-0004 ( $\pm 0.55$ -acre parcel). This parcel is developed with a residential structure reportedly built in 1797.

### Site History

VHB reviewed available public records, historical topographic maps, historic aerial photographs, and historical city directories filed at the Connecticut State Library for information regarding the host property/Site. Additional historical topographic maps were reviewed on Maptech's website (<http://historical.maptech.com>).

According to historic information reviewed, the host property/Site appears to have historically existed as vacant cleared land since at least the early 1890's until the host property was developed with the First Assembly of God Church of Meriden in 1968. The current deed for the host property indicates that the First Assembly of God Church of Meriden, Inc. acquired the  $\pm 2.98$ -acre host property, as well as the aforementioned southerly abutting  $\pm 0.55$ -acre parcel, from Robert S. Rice and Loretta S. Rice on June 23, 1967. Based on this information and City Directories reviewed, prior to 1968 the host property/Site was owned by Mr. and Mrs. Rice and utilized as the "Rice Turkey Farm" in association with the southerly abutting residence. (According to assessor records, the existing house situated on the southerly abutting property was built in 1797).

The existing southern portion of the church building was originally constructed in 1968. Based on aerial photographs reviewed, sometime during the mid to late 1980's the existing northern portion of the church building was constructed as an addition. The Site has existed as undeveloped gravel ground (situated just west of the church's asphalt-paved parking lot) since 1968.

### Environmental Regulatory Review

VHB reviewed select FirstSearch™ environmental databases in accordance with the ASTM E 1527-00 Standard Practice for Environmental Site Assessments and available files at the Connecticut State Department of Environmental Protection (CTDEP), including Bureau of Water Management, Hazardous Waste Management, Oil and Chemical Spills, underground storage tank (UST) Program, leaking underground storage tank (LUST) Program, Notice of Violations, and the Property Transfer Program regarding the host property/Site.

A spill incident identified at 651 Paddock Avenue is listed in the FirstSearch™ report. According to the report, on September 22, 1995 five gallons of #2 fuel oil were released at 651 Paddock Avenue due to "above ground failure". Information provided in the FirstSearch™ does not indicate whether the spill incident was associated with a UST or above ground storage tank (AST) containing fuel oil. The spill incident was reportedly terminated and is considered "closed" by the CTDEP. Based on Site observations and an interview with the host property's facility manager, Peter Bartis, the original southern portion of the church building (constructed in 1968) is currently heated via fuel oil stored in a 500-gallon UST located east of the southern end of the church building. No documentation regarding this UST was found on file with the City of

Meriden municipal offices or the CTDEP for the host property (based on the Site and contents of the UST, it does not require registration). Mr. Bartis indicated that the UST was installed on the host property in June 1989. According to Mr. Bartis, the UST has had no reported releases or problems. It is unknown whether the spill listing is associated with the host property or the southerly abutting residence, as both parcels possess the same address and, according to Mr. Bartis, the southerly abutting residence is also heated via an UST containing #2 fuel oil. Mr. Bartis has no knowledge of the release that was reported in 1995. However, based on the nature of this spill incident and its closed status, it is unlikely that environmental conditions at the Site have been impacted by the spill.

The SNET right of way located within the southern end of the host property is identified by FirstSearch™ as a non-geocoded state spill listing. Based on the report, on February 20, 2002 one gallon of battery acid fluid (nickel-cadmium) was released on a cement pad of a transformer due to "container failure". The spill was reportedly contained, neutralized, and cleaned (soil removed) and is considered "closed" by the CTDEP. Based on the nature of this spill incident and reported clean-up activities, it is unlikely that environmental conditions at the Site have been impacted by the spill.

No documentation regarding these spill listings or any additional information relative to the host property/Site was found in the CTDEP public files.

#### **Site Observations**

VHB performed a Site reconnaissance on May 10, 2006 that included observations of the exterior portions of the host property for overt evidence of OHM. VHB was not provided with access to interior portions of the church building; observations were limited to the Site area and immediate surrounding vicinity.

The host property is currently utilized by the First Assembly of God Church of Meriden, developed with a single-story ±4,674 square-foot church erected on the eastern portion of the host property. The central portion of the host property exists as asphalt-paved parking and gravel areas. The proposed facility is located on gravel ground, situated approximately 160 feet west of the church (just west of the asphalt-paved parking lot). The western most end of the host property is forested. SNET owns a small right of way that transects the southern end of the host property. An equipment cabinet and two small transformers were observed on SNET's property located approximately 80-feet south of the proposed compound area. No labeling was observed on the equipment that would indicate the presence or absence of polychlorinated biphenyl (PCB).

A vent and fill pipe, associated with 500-gallon UST containing fuel oil, were observed protruding from the grass ground located east of the original southern portion of the church building. This UST is located approximately 260 feet east of the proposed compound area in an up-gradient position relative to the Site.

## **Conclusion and Recommendations**

The results of this ESA did not identify the presence of significant environmental concerns at the Site. However, the existing 500-gallon UST containing #2 fuel oil (reportedly installed in June 1989) is located within  $\pm 260$  feet and in an up-gradient position relative to the Site. Any releases from this UST may have the potential to impact groundwater beneath the Site. VHB could not confirm whether the aforementioned spill listing is associated with the UST located on the host property, or the UST located on southerly abutting property. VHB understands that excavation activities will be required at the Site for the installation of ground equipment. However, these excavations typically extend to a depth of approximately 4 feet below ground surface, and although depth to groundwater at the Site is unknown, it is unlikely that groundwater will be encountered during excavation activities. As a result, it is VHB's opinion that no further investigations are necessary at this time.

# 2

## Introduction

At the request of Optasite, Inc (Optasite) Vanasse Hangen Brustlin, Inc. (VHB) conducted an Environmental Site Assessment (ESA) of a proposed wireless telecommunications facility on a portion of the central region of the First Assembly of God Church of Meriden's property (identified herein as the "Site") located at 651 Paddock Avenue, Meriden, Connecticut (identified herein as the "host property").

The ESA was conducted to identify potential areas of environmental concern at and within the vicinity of the Site based on a review of available environmental information and observations of the Site/host property for overt evidence of a release or threat of a release of oil or hazardous materials (OHM). The scope of services for this ESA included a historical review, federal and state environmental database search, state and municipal regulatory file reviews, and a perimeter Site reconnaissance.

This ESA is subject to the terms of the Agreement between VHB and Optasite, as well as the Limitations included in Appendix A. VHB understands that Optasite may enter into a lease agreement with the current owner to construct a telecommunications tower facility on the host property.

# 3

## Site Description

### Location Description

The Site is located within the central portion of the host property located at the First Assembly of God Church of Meriden, 651 Paddock Avenue, Meriden, Connecticut. The host property is identified by the City of Meriden Assessor's Office on Map No. 0906, Block 098D, Lot 0020-0005. Based on information provided by Optasite, the coordinates for the Site are 41° 30' 45" latitude and 72° 46' 45" longitude.

### Site and Vicinity Characteristics

The Site, and subject of this assessment, includes a proposed  $\pm 50$ -foot by  $\pm 90$ -foot chain-link fenced-enclosed ground lease compound area located within the central portion of the host property and proposed access drive/utilities easement. The proposed compound area currently exists as gravel ground, situated just beyond an asphalt-paved parking area. Optasite is proposing to construct a  $\pm 120$ -foot tall monopole within the compound, attach future carrier antennae at approximately 90-feet, 100-feet, 110-feet, and 120-feet AGL onto the monopole, and install associated ground equipment at the base of the monopole. The proposed access drive/utilities easement will follow an existing asphalt-paved driveway extending in a westerly direction off of Paddock Avenue.

The host property is currently occupied and owned by the First Assembly of God Church of Meriden. The proposed facility is located approximately 160 feet west of the church. SNET owns a small right of way transecting the southern most boundary of the host property.

Surrounding land uses in the vicinity of the host property include:

- Residential properties followed by Wilbur Cross Highway to the north;
- Residential properties to the south along Miller Avenue;
- Paddock Avenue followed by residential development to the east.
- Wilbur Cross Highway and Residential properties to the west.

The residential property located north of the intersection of Paddock Avenue and Miller Avenue, abutting the host property to the south, is also owned by the First Assembly of God

Church of God and identified as 651 Paddock Avenue on Assessor's Map No. 0906, Block 098D, Lot 0200-0004. This parcel is developed with a residential structure reportedly built in 1797.

## Physical Setting

The USGS 7.5-Minute Meriden Quadrangle topographic map was used to characterize the general topography of the Site (see Figure 1). The Site is located approximately 325-feet above mean sea level. Based on the topographic map and on-Site observations, inferred groundwater flow direction in the vicinity of the Site is in a general north direction towards wetlands located approximately 75-feet north of the Site.

The groundwater below and near the Site is classified by the Connecticut Department of Environmental Protection (CTDEP) as a GA groundwater area. The GA classification indicates groundwater within the area of existing private water supply wells or an area with the potential to provide water to public or private water supply wells. CTDEP presumes that groundwater in such an area is, at a minimum, suitable for drinking or other domestic uses without treatment.

The nearest surface water body to the Site is an unnamed pond located approximately 730-feet northeast of the Site; this pond is not mapped or classified by CTDEP.

Soils in the vicinity of the Site are classified as sand and gravel (Surficial Materials Map of Connecticut, USGS, 1992).

Bedrock geology underlying the Site is identified as part of the New Haven Arkose formation (Bedrock Geological Map of Connecticut, USGS, 1985). This formation/bedrock consists of poorly sorted, reddish, medium-to-coarse-grained, sandstone-like, sedimentary rock. Arkose, commonly known as brownstone, contains quartz, feldspar, and various rock fragments.

The Federal Emergency Management Agency (FEMA) National Flood Insurance Program (NFIP) Flood Zone Mapping Community Panel (FZMCP) #090081 0005 C dated November 20, 2000 for the City of Meriden, Connecticut indicates that the host property/Site is located outside of a 100-year and 500-year floodplain area.

According to a map titled "Inland Wetlands & Watercourses, City of Meriden", dated April September 3, 1986 and filed at the Meriden City Hall, the Site appears to be situated just outside of a wetland area. Wetlands appear to infringe on the northwestern end of the host property.

---

## Description of Structures

No structures currently exist on the Site. The  $\pm 2.98$ -acre host property is developed with a single-story  $\pm 4,674$  square-foot church building, reportedly constructed in 1968 with an addition built on in the mid to late 1980's. An equipment cabinet and two small transformers owned and maintained by SNET are located approximately 80-feet south of the proposed compound area within the SNET property right of way.

---

## Current and Past Uses of Site and Adjoining Properties

VHB personnel reviewed available public records including historical topographic maps (dated 1992, 1984, 1972, 1967, and 1955), historic aerial photographs (dated 1990, 1985, 1980, 1970, 1965, 1951, and 1934), and select historical city directories (dated 1960 through 1991) filed at the Connecticut State Library for information regarding the host property/Site. VHB also reviewed available Sanborn Fire Insurance Maps at the Connecticut State Library. No Sanborn coverage exists for the area of the host property. Additional topographic maps (dated 1945, 1908, and 1893) were reviewed on Maptech's website (<http://historical.maptech.com>).

---

## Historic Topographic Maps

Topographic maps dated 1992, 1984, 1972, and 1967 depict the host property as being developed with the church structure as it exists today. The host property is depicted as vacant land on topographic maps dated 1955, 1946, 1908, and 1893.

Based on topographic maps reviewed, Paddock Avenue and Miller Avenue, as well as the residence abutting the host property to the south (also located at 651 Paddock Avenue), has existed as early as 1893. Wilbur Cross Highway is not present on topographic maps dated prior to 1946. A steady increase in residential development surrounding the host property is relevant in topographic maps dated 1955 through 1992.

---

## Historic Aerial Photographs

### 1990 Aerial Photograph

The 1990 aerial photograph depicts the host property in its current condition, with the First Assembly of God church developed on the eastern portion of the property. The Site is depicted on gravel ground just west of the existing asphalt-paved parking lot. Adjoining residential properties are depicted as they currently exist today. Wilbur Cross Highway is present further north and west of the host property.

### **1986, 1980, and 1970 Aerial Photograph**

Aerial photographs dated 1986, 1980, and 1970 depict the host property and Site similar to that of the 1990 aerial photograph, with the exception that the church structure is missing the northern section of the building that exists today. Adjoining properties are residentially developed. Wilbur Cross Highway is present further north and west of the host property.

### **1965 and 1951 Aerial Photograph**

The host property/Site is depicted as being vacant in the 1965 and 1951 aerial photograph. In the 1965 aerial photograph, residential development is present east of the host property along Paddock Avenue and south along Miller Avenue. The 1951 aerial photograph depicts less residential development along Paddock Avenue and Miller Avenue; the southerly abutting house (651 Paddock Avenue) is present in its current configuration. Wilbur Cross Highway is depicted further north and west of the host property on the 1965 and 1951 aerial photographs.

### **1934 Aerial Photograph**

The host property/Site is depicted as being vacant on the 1934 aerial photograph. The residence abutting the host property to the south is present. Remaining adjoining properties situated along Paddock Avenue and Miller Avenue appear to be undeveloped. Wilbur Cross Highway does not exist.

---

## **City Directories**

In contrast to Assessor information, the First Assembly of God is listed in Meriden City Directories dated 1991 through 1969 at 601 Paddock Avenue. (There are no listings for 601 Paddock Avenue in directories dated prior to 1969). It is evident that these listings for 601 Paddock Avenue are associated with the host property. 651 Paddock Avenue is listed in City Directories as being occupied by Richard Dinneen in 1991; no listing in 1986 and 1981; Thomas A. Fegler, Rev in 1975; vacant in 1970; Thomas R. Brubaker, Rev in 1968; Rice S. Robert in 1965 and 1963; and Robert S. Rice, Rice Turkey Farm, in 1960. Based on municipal information reviewed, prior to 1968 the host property and the southerly abutting residential property, both currently possessing the same address, were owned by Robert S. Rice and Loretta S. Rice as one parcel. City directory listings for 651 Paddock Avenue dated after 1967 appear to be tenants of the southerly abutting residence. The host property was likely utilized as the Rice Turkey Farm prior to 1968.

Based on City Directories reviewed, surrounding land use in the vicinity of the host property along Paddock Avenue has historically been residential.

## Records Review

VHB conducted regulatory file reviews to help identify properties in the vicinity of the Site/host property that have had a release or pose a threat of release of OHM, and which may potentially impact the environmental quality of the Site. VHB reviewed federal and state environmental databases using the *FirstSearch Technology Corporation's* Environmental FirstSearch™ Report. VHB also reviewed select files at the CTDEP Bureaus of Water and Waste Management and select Meriden municipal offices. Pertinent file information discussed herein is provided in Appendix C.

### Environmental Database Search

VHB reviewed the following FirstSearch™ environmental databases, including: National Priorities List (NPL); Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS); Resource Conservation and Recovery Act (RCRA) Treatment, Storage, and Disposal (TSD) facilities list; RCRA generators (GEN); RCRA no longer registered (NLR) generators; state hazardous waste sites; state list of spills sites; Active Solid Waste Landfill (SWL) facilities; registered underground storage tanks (USTs); and Leaking USTs (LUSTs). The FirstSearch™ report is attached in Appendix B. Database search radii were chosen generally in accordance with the ASTM E 1527-00 Standard Practice for Environmental Site Assessments, as outlined below.

DATABASE	ASTM SEARCH RADIUS	NUMBER OF SITES WITHIN SEARCH RADIUS
NPL sites	1 mile	0
CERCLIS sites	0.5 mile	0
RCRA TSD	0.5 mile	0
RCRA Generators	0.25 mile	0
RCRA NLR	0.25 mile	0
State Hazardous Waste Sites	1 mile	6
State Spills	0.5 mile	22
SWL facilities	0.5 mile	0
Registered UST's	0.25 mile	0
LUSTs	0.5 mile	7

A spill incident identified at 651 Paddock Avenue is listed in the FirstSearch™ report. According to the report, on September 22, 1995 five gallons of #2 fuel oil were released at 651 Paddock Avenue due to "above ground failure". Information provided in the FirstSearch™ does not indicate whether the spill incident was associated with a UST or AST containing fuel

oil. The spill incident was reportedly terminated and is considered "closed" by the CTDEP. Based on Site observations and an interview with the host property's facility manager, Peter Bartis, the original southern portion of the church building (constructed in 1968) is currently heated via fuel oil stored in a 500-gallon UST located east of the southern end of the church building. No documentation regarding this UST was found on file with the City of Meriden municipal offices or the CTDEP for the host property. Mr. Bartis indicated that the UST was installed on the host property in June 1989. According to Mr. Bartis, the UST has had no reported releases or problems.. It is unknown whether the spill listing is associated with the host property or the southerly abutting residence, as both parcels possess the same address and, according to Mr. Bartis, the southerly abutting residence is also heated via an UST containing #2 fuel oil. Mr. Bartis has no knowledge of the release that was reported in 1995. However, based on the nature of this spill incident and its closed status, it is unlikely that environmental conditions at the Site have been impacted by the spill. The host property/Site was not listed on any additional databases queried by FirstSearch™.

VHB reviewed geocoded and non-geocoded (properties with minimal or no address information) listings identified by FirstSearch™ within the specified search radii. The SNET right of way located within the southern end of the host property is identified by FirstSearch™ as a non-geocoded state spill listing. Based on the report, on February 20, 2002 one gallon of battery acid fluid (nickel-cadmium) was released on a cement pad of a transformer due to "container failure". The spill was reportedly contained, neutralized, and cleaned (soil removed) and the incident is considered "closed" by the CTDEP. Based on the nature of this spill incident, it is unlikely that environmental conditions at the Site have been impacted by the spill. No additional geocoded or non-geocoded listings reviewed within the search radii appear to be associated with the host property or adjoining parcels, and none of these listings are expected to have any direct effect on environmental conditions at the Site.

---

## State Record Sources

On May 10, 2006, VHB reviewed available files at the CTDEP, including Bureau of Water Management, Hazardous Waste Management, Oil and Chemical Spills, UST Program, LUST Program, Notice of Violations, and the Property Transfer Program regarding the Site. No documentation regarding the aforementioned spill listings, UST, or any additional information relative to the host property/Site was found in the CTDEP public files.

---

## Municipal Record Sources

Select municipal offices were visited to obtain information regarding Site history and use, zoning, and oil or hazardous materials use, storage, release, and/or disposal practices that may have occurred at the Site/host property.

---

**Assessor's Office**

The City of Meriden Assessor's Office identifies the host property as a 2.98-acre parcel of land, on Assessor's Map No. 0906, Block 098D, Lot 0020-0005. The assessor's field card indicates that the host property is currently owned by First Assembly of God Church of Meriden.

---

**City Clerk's Office**

The current deed for the host property is recorded at the City Clerk's Office registry of deeds in Volume 487, Page 16. According to the deed, the First Assembly of God Church of Meriden, Inc. acquired the  $\pm$ 2.98-acre host property, as well as the southerly abutting property ( $\pm$ 0.55-acre of land identified as assessor Map No. 0906, Block 098D, Lot 0200-0004, also addressed at 651 Paddock Avenue), from Robert S. Rice and Loretta S. Rice on June 23, 1967.

There were no environmental liens identified for the host property during the municipal file review. A certified title search where environmental liens would be definitively identified is not within the scope of services for this investigation. A title company is capable of completing a full title and environmental lien search.

---

**City Building Department**

VHB conducted a file review at the City of Meriden's Building Department on May 10, 2006. No files exist for the host property; however, a representative of the Building Department indicated that the following building permits are documented in their computer records for the host property:

- Permit dated August 1996 regarding re-roofing the church.
- Permit No. 4376 dated November 10, 2004 for siding on the church.

---

**City Planning and Zoning Department**

VHB conducted a file review at the City of Meriden's Planning and Zoning Department on May 10, 2006. According to department personnel, no files exist for the host property.

According to the City of Meriden's Zoning Map dated May 1992, the host property is zoned Suburban Residential (SR).

---

**Health Department**

VHB conducted a file review at the City of Meriden's Health Department on May 10, 2006. According to department personnel, no files exist for the host property. VHB reviewed the

Health Department files for Paddock Avenue. No information regarding the host property or adjoining properties were found on file.

---

**Fire Marshal's Office**

VHB conducted a file review at the City of Meriden's Fire Marshal's Office on May 10, 2006. According to department personnel, no files exist for the host property.

## Perimeter Site Reconnaissance

VHB performed a Site reconnaissance on May 10, 2006 that included observations of the exterior portions of the host property for overt evidence of OHM. VHB was not provided with interior access to the church on the host property; observations were limited to the Site area and immediate surrounding vicinity. A Site Schematic is provided in Figure 2 and photographs taken during the Site reconnaissance are provided in Appendix D.

### General Observations

The  $\pm 2.98$ -acre host property is currently utilized by the First Assembly of God Church of Meriden, developed with single-story  $\pm 4,674$  square-foot church building erected within the eastern portion of the host property. The central portion of the host property exists as asphalt-paved parking and gravel areas. The proposed  $\pm 50$ -foot by  $\pm 90$ -foot ground lease compound area is located on gravel ground, situated approximately 160 feet west of the church (just west of the asphalt-paved parking lot). The proposed access/utilities easement follows the existing asphalt-paved driveway, originating off of Paddock Avenue and extending in a westerly direction towards the compound area/parking lot. The western most end of the host property is forested. SNET owns a small right of way that transects the southern end of the host property.

### Storage Tanks

During the Site reconnaissance, a vent and fill pipe were observed protruding from the grass ground located east of the original southern portion of the church building (constructed in 1968). Based on Site observations and an interview with the host property's facility manager, Peter Bartis, the original southern portion of the church building (constructed in 1968) is currently heated via fuel oil stored in a 500-gallon UST located east of the southern end of the church building, approximately 260 feet east of the proposed compound area. No documentation regarding this UST was found on file with the City of Meriden municipal offices or the CTDEP for the host property (based on the Site and contents of the UST, it does not require registration). Mr. Bartis indicated that the UST was installed on the host property in June 1989 and that the UST has had no reported releases or problems. The newer northern addition of the church (built in the mid to late 1980's) is heated via natural gas.

---

## **Utilities**

Overhead utilities are available along Paddock Avenue and currently service the host property. Based on information provided by Optasite, the Site will be serviced via underground utilities that will follow the proposed utilities easement.

The host property and adjoining properties are serviced via municipal water and sanitary sewer. Based on information provided by Optasite, the proposed Site does not require a water and sewer connection.

---

## **Indications of Polychlorinated Biphenyls**

The SNET right of way contains an equipment cabinet and two small transformers located approximately 80-feet south of the proposed compound area. No labeling was observed on the equipment that would indicate the presence or absence of polychlorinated biphenyl (PCB).

## Limitations

---

**First Assembly of God Church of Meriden****651 Paddock Avenue****Meriden, Connecticut**

- This report has been prepared for the sole and exclusive use of Optasite, Inc. (the Client) and is subject to and issued in connection with the Agreement and the provisions thereof. Any use or reliance upon information provided in this report, without the specific written authorization of the Client and VHB, shall be at the User's sole risk.
- VHB was not authorized to access secured and occupied areas of the Site and/or property, including buildings, dwellings and other structures. No representation regarding current environmental conditions, other than observations made from exterior locations of the property (including outside fenced areas of existing compound sites) is provided herein.
- In conducting this assessment, VHB has obtained and relied upon information from multiple sources to form certain conclusions regarding potential environmental issues at and in the vicinity of the subject property. Except as otherwise noted, no attempt has been made to verify the accuracy or completeness of such information.
- No attempt has been made to assess the compliance status of any past or present Owner or Operator of the Site with any federal, state, or local laws or regulations.
- No attempt has been made to assess Site or property buildings, dwellings, and/or structures for the presence of asbestos containing materials or lead-based paint.
- The findings, observations, and conclusions presented in this report are limited by the scope of services outlined in our Agreement, which reflects schedule and budgetary constraints imposed by the Client for the current phase of environmental assessment. No other warranty, expressed or implied, is made.

- The assessment presented in this report is based solely upon information gathered to date. Should further environmental or other relevant information be developed at a later date, the Client should bring the information to the attention of VHB as soon as possible. Based upon an evaluation, VHB may modify the report and its conclusions.
- The Environmental FirstSearch™ Database Search was conducted under the Notice of Disclaimer/Waiver of Liability included in the New England DataMap Technology Corporation summary report.

### Notice of Disclaimer

Due to the limitations, constraints, inaccuracies and incompleteness of government information and computer mapping data currently available to FirstSearch Technology Corp., certain conventions have been utilized in preparing the locations of all federal, state and local agency sites residing in FirstSearch Technology Corp.'s databases. All EPA NPL and state landfill sites are depicted by a rectangle approximating their location and size. The boundaries of the rectangles represent the eastern and western most longitudes; the northern and southern most latitudes. As such, the mapped areas may exceed the actual areas and do not represent the actual boundaries of these properties. All other sites are depicted by a point representing their approximate address location and make no attempt to represent the actual areas of the associated property. Actual boundaries and locations of individual properties can be found in the files residing at the agency responsible for such information.

### Waiver of Liability

Although FirstSearch Technology Corp. uses its best efforts to research the actual location of each site, FirstSearch Technology Corp. does not and can not warrant the accuracy of these sites with regard to exact location and size. All authorized users of FirstSearch Technology Corp.'s services proceeding are signifying an understanding of FirstSearch Technology Corp.'s searching and mapping conventions, and agree to waive any and all liability claims associated with search and map results showing incomplete and or inaccurate site locations.

# To all People to Whom these Presents shall Come Greeting:

Know Ye, That We, Robert S. Rice and Loretta S. Rice of 651 Paddock Avenue in the Town of Meriden, County of New Haven and State of Connecticut

for the consideration of One (\$1.00) Dollar and other valuable consideration

received to our full satisfaction of First Assembly of God Church of Meriden, Inc., a charitable institution, located in the Town of Meriden, County of New Haven and State of Connecticut

do give, grant, bargain, sell and confirm unto the said First Assembly of God Church of Meriden, Inc.

a certain piece or parcel of land, with all buildings and improvements thereon, situated in the City of Meriden, County of New Haven, State of Connecticut, being shown as Plot A, B, C, D and E on a map entitled "Map Showing Plots A, B, C, D, & E The Property of Robert and Loretta Rice Meriden, Conn. Scale 1" = 40' May 8, 1967" on file in the Meriden Town Clerk's Office, and being more particularly bounded and described as follows:

NORTHERLY: by land of Walter and Cecelia Lacz, as shown on said map, 470.90 feet;  
EASTERLY: on Paddock Avenue, as shown on said map, 418.56 feet, more or less;  
SOUTHERLY: on an arc made by the intersections of Paddock and Miller Avenues, as shown on said map, 67.67 feet;  
SOUTHWESTERLY: on Miller Avenue, as shown on said map, 497.71 feet;  
WESTERLY: on Wilbur Cross Parkway, as shown on said map, 709.8 feet;  
EASTERLY again: by land now or formerly of Schipke and land of Walter and Cecelia Lacz, as shown on said map, each in part, in all, 158.65 feet;

## SUBJECT TO:

1. Such a state of facts as an accurate survey might disclose and to any and all provisions of any ordinance, municipal regulation, executive order, or public or private law.
2. Drainage Easement as contained in a deed from William B. Rice to State of Connecticut, dated May 3, 1935 and recorded May 14, 1935 in the Meriden Land Records, Volume 231 at Pages 230 and 231, if the same affects said premises.
3. Rights of Ingress and Egress to the Wilbur Cross Parkway as contained in a deed from William B. Rice to State of Connecticut, dated May 21, 1941 and recorded May 29, 1941 in the Meriden Land Records in Volume 259 at Page 211.
4. Real Property taxes on the List of October 1, 1966, second half only, payable to the City of Meriden, which the Grantee herein assumes and agrees to pay.
5. Water rent for the period commencing June 1, 1967, payable to the City of Meriden, which the Grantee herein assumes and agrees to pay.

To Have and to Hold the above granted and bargained premises, with the appurtenances thereof, unto it the said grantee its heirs, successors and assigns forever, to its and their own proper use and behoof.

And also, We the said grantors do for ourselves and our heirs, executors and administrators, covenant with the said grantee its successors, heirs and assigns, that at and until the enrolling of these presents,

We are well seized of the premises, as a good indefeasible estate in FEE SIMPLE; and have good right to bargain and sell the same in manner and form as is above written; and that the same is free from all incumbrances whatsoever, except as hereinbefore mentioned.

And Furthermore, We the said grantors do by these presents bind ourselves and our heirs, executors and administrators forever to WARRANT AND DEFEND the above granted and bargained premises to the said grantee its successors, heirs and assigns, against all claims and demands whatsoever, except as hereinbefore mentioned.

In Witness Whereof, We have hereunto set our hands and seals this 23rd day of June in the year of our Lord nineteen hundred and sixty-seven.

Signed, Sealed and Delivered in presence of

*David Brown*  
David Brown

*Robert S. Rice*  
Robert S. Rice

*Lena B. D'Amico*

*Loretta S. Rice*  
Loretta S. Rice

State of Connecticut,

County of New Haven

at Meriden June 23, 1967

On this the 23rd day of June, 1967, before me, David Brown, the undersigned officer, personally appeared Robert S. Rice and Loretta S. Rice

known to me (or satisfactorily proven) to be the person whose names are subscribed to the within instrument and acknowledged that they executed the same for the purposes therein contained.

In Witness Whereof, I hereunto set my hand and official seal.

RECEIVED FOR RECORD

June 26, 1967 AT 1:53 P.M.

AND RECORDED BY

*James P. Ambrose*  
TOWN CLERK

*David Brown*  
David Brown
