Re: **Somers Solar Center, LLC**
Proposed Solar Generating Facility

Dear «Salutation»:

On October 31, 2012, Somers Solar Center, LLC ("Somers") submitted a petition for declaratory ruling to the Connecticut Siting Council ("Council") for approval of the construction and operation of a five (5) megawatt/AC ("MW") solar generating facility, including all associated equipment and related site improvements (the "Project"), to be located at 488 South Road in Somers, Connecticut ("Property").

The Project will consist of the installation of photovoltaic panels and associated ground equipment, upgrading and installation of an access road off of South Road and an electrical interconnection. An electrical collector yard will also be constructed on the Property. The entire Project will be surrounded by a six foot (6') chain linked fence.

Pursuant to the provisions of Connecticut General Statutes § 16-50g *et seq.*, the location and/or certain features of the Project may change as it proceeds through the Council's regulatory approval process.

If you have any questions concerning the Project, please feel free to contact me or the Council at (860) 827-2935. Thank you.

Sincerely,

Joey Lee Miranda
