**Re: Petition No. 1042: Somers Solar Center, LLC Petition for a Declaratory Ruling that No Certificate of Environmental Compatibility and Public Need is Required for the Construction and Operation of a 5.0 MWac Solar Photovoltaic Project located at 458 & 488 South Road, Somers, Connecticut**

Dear Ms. Bachman:

On March 21, 2013, the Connecticut Siting Council (“Council”) issued a Decision and Order in the above-referenced proceeding declaring that a Certificate of Environmental Compatibility and Public Need was not required for the construction, operation and maintenance of a 5MWac solar photovoltaic facility at 458 and 488 South Road (the “Facility”). Condition 3 of the Decision and Order requires Somers Solar Center, LLC (“SSC”) to provide a first year operating report within three months after the conclusion of the Facility’s first year of operation.

The Facility began commercial operation on December 23, 2013. In compliance with Condition 3, SSC hereby provides the Council with the following information about the Facility’s first year of operation:

<b>Number of Hours Operated:</b>	The Facility operated 3,834 hours from December 23, 2013 to December 23, 2014.
<b>Amount of Energy Generated:</b>	The Facility generated 8,474 MWh from December 23, 2013 to December 23, 2014.
