725 Bank Street
Waterbury, CT

Dear Mr. Laudénat:

The State Historic Preservation Office acknowledges receipt of the *Documentation of Ansonia Copper and Brass, Inc., Plant, Waterbury Connecticut* and associated digital version prepared by Raber Associates concerning the above-named project. This office believes that the submitted materials are consistent with our documentation standards and succinctly record the historic, architectural, and industrial aspects of the Ansonia Copper and Brass, Inc., Plant.

The State Historic Preservation Office has transferred the documentation materials to the Thomas J. Dodd Research Center at the University of Connecticut (Storrs) for permanent archiving and public accessibility.

This office concurs with Raber Associates' assessment that archaeological monitoring is not warranted with respect to the proposed undertaking. We further understand that Raber Associates will finalize and submit appropriate materials to the *Society for Industrial Archeology New England Chapters Newsletter*.

The State Historic Preservation Office appreciates FirstLight Power Resources' efforts to professionally manage and document Connecticut's cultural heritage. This comment updates and supersedes all previous correspondence for the proposed undertaking. For further information please contact Dr. David A. Poirier, Staff Archaeologist.

Sincerely,

Karen Senich
Deputy State Historic Preservation Officer
