

Conductor 795 kcmil ACSR 26/7
 Shield wire Alumoweld 19#10 Eqvt OPGW
 Span Varies from approximately 250 ft to 450 ft.
 10.5 ft horizontal offset from center line track to face
 of hybrid steel pole with concrete base

Suspension Structure - Vertical Configuration (Typical)

Conductor 795 kcmil ACSR 26/7
 Shield wire Alumoweld 19#10 Eqty OPGW
 Structure height based on 600 ft Span

Suspension Structure - Vertical Configuration (Typical)
