Re: Petition No. 973
North Atlantic Towers, LLC and New Cingular Wireless PCS, LLC ("AT&T")
Development and Management Plan Revision
880 Andrew Mountain Road, Naugatuck, Connecticut

Dear Ms. Bachman:

This letter is submitted on behalf of New Cingular Wireless PCS LLC ("AT&T") to respectfully request a six week extension of time to install AT&T's facility on the fully constructed Naugatuck tower facility located at 880 Andrew Mountain Road. As detailed in AT&T's February 28, 2014 revised D&M submission for this facility, AT&T recently updated its equipment specifications for the provision of Long Term Evolution (LTE) services. Thus, additional construction time is needed to obtain the updated equipment, install it on the tower facility and make AT&T's facility operational.

The supervisor for all construction related matters for AT&T's facility is Bryon Morawski of SAI. Mr. Morawski is located at 500 Enterprise Drive, Suite 3A, Rocky Hill, CT 06067 and can be reached by telephone at (860) 513-7223. With respect to construction of AT&T's facility, it is anticipated that construction will commence upon approval of AT&T's revised D&M Plan and AT&T's facility is expected to be on-air by the six week extension request time period. AT&T will provide notice of the commencement of construction of its facility as well as notice of completion of construction and the facility operational date.

It is AT&T's understanding that the tower is fully constructed and that the Verizon collocated facility is operational.

Also, please be advised that Cuddy & Feder LLP no longer represents North Atlantic Towers, LLC, the owner of the tower facility. To the extent the Council seeks additional information from NAT regarding construction of this facility or compliance with conditions in the Certificate, we have copied this letter to Mr. Keith Coppins, who can be reached at 110 Washington Avenue, North Haven, Connecticut, (203)-623-3287.

Thank you for your consideration of this request.

Very truly yours,

Lucia Chiochio
