Connecticut Siting Council

Dear Ms. Roberts:

I understand that BNE Energy has applied to the Connecticut Siting Council to construct wind turbines in the town of Prospect. I am writing to request the CSC hold a public hearing in the town of Prospect in order for residents to address their concerns about such a project.

In the past few weeks, my office has received emails and phone calls from residents expressing their concerns about the construction of wind turbines being considered by your council. Some of my constituents believe there is reason for concern over how the turbines will impact the residential neighborhoods and would like to have the opportunity to be heard by your council to have their concerns addressed.

I would appreciate your examination of this matter to see if you can be of assistance to my constituents. Please contact my staff assistant, Kimberly Junior, at 203-562-3718, if you have any questions or would like additional information.

Sincerely,

ROSA L. DeLAURO
