Dear Ms. Bachman:

Please find enclosed the ninetieth bi weekly third party environmental monitoring reports prepared by Lenard Engineering of the Colebrook South Site Wind Turbine Site (Petition 983). The areas that have been cleared have been done in accordance with the plans and conform to the conservation plan for the protection of the cryptic vernal pools documented within Wetland One. We are continuing our bi-weekly monitoring of site conditions. We completed our annual amphibian monitoring of the two cryptic vernal pools on site and that report will be filed with the CSC by the end of June.

If you require additional information, please do not hesitate to contact me.

Sincerely,

Michael W. Klemens, PhD
