RE: **EM-SPRINT-003-180504** – Sprint Spectrum Realty Company, L.P. notice of intent to modify an existing telecommunications facility located at 20 Seles Road, Ashford, Connecticut.

Dear Mr. Sagristano:

The Connecticut Siting Council (Council) is in receipt of your email of June 7, 2018 requesting an extension of time to submit documentation required to make the above-referenced filing complete in response to the Council's incomplete notice dated May 16, 2018.

The Council hereby grants a 30-day extension of time to submit the required documentation by July 16, 2018. Thank you for your attention to this matter.

Sincerely,

Melanie A. Bachman  
Executive Director

MAB/FOC/jmb

Re: Notice of Exempt Modification Application extension request  
22 Seles Road, Ashford, CT 06278

June 8, 2017

Dear Ms. Bachman:

I am submitting this extension request for the tower location to the CT Siting Council and received a notice that the Structural Analysis was not consistent with other documents on mounting height. I would like to request an extension for resubmittal of the revised analysis, as I do not expect to have the revised document back before the deadline of June 15. I am therefore requesting an additional 30 day extension of time for the filing for the revised structural analysis. Please advise if you can approve that extension. Thank you.

If you have any questions, please feel free to contact me.

Thank you,

By: *Paul F. Sagristano*

**RE: EM-SPRINT-003-180504** – Sprint Spectrum Realty Company, L.P. notice of intent to modify an existing telecommunications facility located at 20 Seles Road, Ashford, Connecticut.

Dear Mr. Sagristano:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on May 4, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a discrepancy between the antenna height of 180 feet listed in the Structural Analysis (SA) Report and Radio Frequency Emissions Analysis (RF) Report compared to 170 feet stated in the transmittal letter and construction drawings (CD) Sheet numbers A-2 and A-4 [Sprint's existing position on the tower is at 170 feet]. Therefore, the exempt modification request is incomplete at this time.

The Council recommends that Cherundolo Consulting provide the requisite documents, either updated SA and RF reports or corrected transmittal letter and CD, for consistency purposes on or before June 15, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to June 15, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Very truly yours,

Melanie Bachman  
Executive Director
