Monopole

Dear Mr. Brodka,

MTS Engineering is pleased to submit this “Construction Completion Letter” regarding the above-mentioned Monopole.

We reviewed the photographs of the telecommunications equipment installed on the Monopole, taken on October 7, 2022. Based on the photographs provided, As Built drawings by Eastern Communications, Inc. dated October 10, 2022, and construction drawings by B+T Group dated September 1, 2021, this telecommunications site has the following antennas and associated equipment installed in three sectors to the Monopole.

- (3) New Antennas w/ Integrated Radios

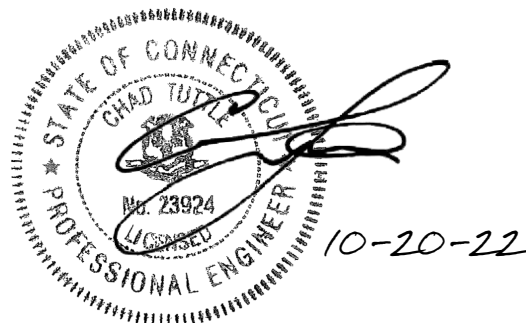

The quantities and types of antennas from the photographs are in structural compliance, therefore, it is our opinion that the antennas were properly installed.

We at MTS Engineering appreciate the opportunity of providing our continuing professional services to you and Crown Castle. If you have any questions or need further assistance on this or any other projects, please give us a call.
