RE: **EM-SPRINT-008-181207** – Sprint Spectrum, LP notice of intent to modify an existing telecommunications facility located at 9 Meyers Road (a/k/a 93 Old Amity Road), Bethany, Connecticut.

Dear Mr. Perry:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on December 7, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the Post-Modification Structural Analysis Report provided with the filing. The Post-Modification Structural Analysis Report prepared by American Tower Corporation and dated October 18, 2018 is not stamped by a professional Engineer duly licensed in the State of Connecticut.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Airosmith Development provide a Post-Modification Structural Analysis Report for the facility that is signed and stamped by a Professional Engineer duly licensed in the State of Connecticut, on or before January 25, 2019. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to January 25, 2019.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman  
Executive Director
