RE: **EM-CING-011-170109** – New Cingular Wireless PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 28 Brewer Drive, Bloomfield, Connecticut.

Dear Mr. Roberts:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on January 9, 2017.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the structural analysis report. The structural analysis report dated November 18, 2016 that was provided in the filing states under Section 4.1 "Recommendations: install the proposed modifications per the referenced drawings." The filing does not contain the referenced drawings or any other description of what equipment was considered.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that QC Development provide the drawings referenced in the structural analysis report on or before February 3, 2017. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to February 3, 2017.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Very truly yours,

Melanie Bachman  
Acting Executive Director
