Re: **EM-VER-011-140423 – Cellco Partnership d/b/a Verizon Wireless  
12 Burr Road, Bloomfield, Connecticut**

Dear Ms. Bachman:

On May 13, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 12 Burr Road in Bloomfield, Connecticut. The modifications involved the replacement of certain antennas and the installation of remote radio heads and a new fiber optic antenna cable.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the modifications referenced in the structural report were completed. Attached is a Professional Engineer's Certification Letter verifying that the tower and foundation modifications were installed in accordance with the Structural Analysis and all construction activity has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Kenneth C. Baldwin".

**Re: Existing Telecommunications Facility Tower Certification Letter**

**Project:** Verizon Bloomfield 2  
12 Burr Road  
Bloomfield, CT

**Tower Owner:** SBA Communications

**Engineer:** FDH Engineering  
6521 Meridien Drive  
Raleigh, NC

**Centek Project No.:** 14055.033

**CSC Exempt Mod Reference No.:** EM-VER-011-140423

Dear Mr. Parks,

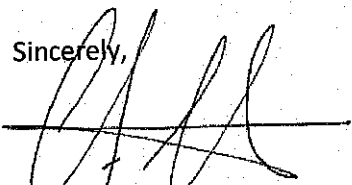

We are providing this "Existing Telecommunications Facility Tower Certification Letter" with regard to the antenna upgrade by Verizon Wireless at the above referenced project.

The following are the basis for substantiating compliance with the FDH Engineering structural analysis report (FDH Project No. 1425AW1400) dated April 3, 2014:

- Review of the FDH structural analysis report dated 04/03/2014.
- Field observations by Centek personnel of the coax and RRH installation on 02/06/2015 which determined all coax lines and RRH's were installed in general compliance with the recommendations of the structural analysis report prepared by FDH Engineering on 04/03/2014.

The structural analysis prepared by FDH Engineering demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the referenced structural analysis.

Sincerely,

Carlo F. Centore, PE  
Principal ~ Structural Engineer
