Re: **EM-VER-012-120718 – Cellco Partnership d/b/a Verizon Wireless
49 South Road, Bolton, Connecticut**

Dear Mr. Martin:

On August 9, 2012, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 49 South Road in Bolton. The modification involved the replacement of certain antennas, the installation of three (3) additional antennas and the installation of coax cable diplexers.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the recommendations specified in the structural report were implemented. Attached is a Tower Modification Certification Letter verifying that these conditions have been satisfied. All construction associated with these modifications has now been completed.

If you have any questions please do not hesitate to contact me or Rachel Mayo.

Sincerely,

Kenneth C. Baldwin

Re: Existing Telecommunications Facility Tower Modification Certification Letter

Project: Verizon ~ Bolton East
49 South Road
Bolton, CT

Tower Owner: AT&T Mobility
500 Enterprise Drive
Rocky Hill, 06067

Engineer: GPD Group
520 South Main Street, Suite 253 Akron, OH 44331

Centek Project No.: 12005.CO41

Dear Mr. Gauger,

We are providing this "Existing Telecommunications Facility Tower Modification Certification Letter" with regard to the antenna upgrade by Verizon Wireless at the above referenced project.

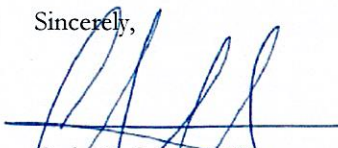

The following are the basis for substantiating compliance with the tower modification documents prepared by GDP Group (GPD Project No. 2012768.47):

- ☐ Review of the GPD Structural Modification Drawings T-01, N-01, S-01, S-02, S-03, and MI-01 dated 07/10/2012.
- ☐ Field observations by Centek Engineering personnel on 2/28/2013 of the completed modifications.

With the completed modifications, the tower and foundation do not exceed 100 percent of their post-construction structural rating.

The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above.

Sincerely,

Carlo E. Centore, PE
Principal ~ Structural Engineer
