RE: **EM-CING-014-210708** – New Cingular Wireless PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 14 Beaver Road, Branford, Connecticut.

Dear Ms. Smith:

The Connecticut Siting Council (Council) is in receipt of your email of September 17, 2021 requesting an extension of time to submit documentation required to make the above-referenced filing complete in response to the Council's incomplete notice dated August 18, 2021.

The Council hereby grants a one-month extension of time to submit the required documentation by October 18, 2021.

Thank you for your attention to this matter.

Sincerely,

Melanie A. Bachman
Executive Director

MAB/CMW/emr

Good morning,

In response to this letter, AT&T engineers are working on the requested revised report and seek additional time to complete their analysis.

Thank you,
Jennille

RE: **EM-CING-014-210708** - New Cingular Wireless PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 14 Beaver Road, Branford, Connecticut.

Dear Ms. Smith:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on July 8, 2021. On August 10, 2021, the Council issued a letter (enclosed) stating that the request for exempt modification was incomplete because the radio frequency power density analysis provided does not include certain required values including the Effective Radiated Power (ERP) and the number of channels being used by each frequency.

On August 19, 2021, Centerline provided a revised power density analysis, dated August 12, 2021, and includes an additional paragraph including the worst-case total ERP for the facility. The information provided is not adequate to make the request complete.

Therefore, the exempt modification request remains incomplete at this time. The Council recommends that Centerline list each antenna and frequency in a given sector and provide the ERP and number of channels for each, on or before September 17, 2021. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to September 17, 2021. **Please provide an electronic version and one hard copy of the requested information for the incomplete exempt modification to be rendered complete and processed. Please include the Council's exempt modification identification number referenced above with the submittal**

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

A handwritten signature in dark ink, appearing to read "Melanie Bachman".

RE: **EM-CING-014-210708** - New Cingular Wireless PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 14 Beaver Road, Branford, Connecticut.

Dear Ms. Nowak:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on July 8, 2021.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the radio frequency power density analysis provided with the request. The radio frequency emissions report dated July 4, 2021 provided with the request does not include certain required values used in calculating the maximum permissible exposure in accordance with the standards adopted by the Federal Communications Commission (FCC) pursuant to Section 704 of the Telecommunications Act of 1996, as amended, and the State Department of Energy and Environmental Protection, pursuant to Section 22a-162 of the Connecticut General Statutes.

The missing values include:

1. Effective Radiated Power; and
2. Number of channels being used by each frequency.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Centerline Communications provide a revised radio frequency power density analysis report including the above referenced information on or before September 10, 2021. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to September 10, 2021. **Please provide an electronic version and one hard copy of the requested information for the incomplete exempt modification to be rendered complete and processed. Please include the Council's exempt modification identification number referenced above with the submittal.**

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

A handwritten signature in dark ink, appearing to read "Melanie Bachman". The signature is fluid and cursive, with a long horizontal stroke at the end.
