Re: **EM-VER-014-141112 – Cellco Partnership d/b/a Verizon Wireless  
850 West Main Street, Branford, Connecticut**

Dear Ms. Bachman:

On December 1, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 850 West Main Street in Branford, Connecticut. The modifications involved the replacement of its antennas and installation of remote radio heads and fiber lines.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the recommendations made in the structural report were complied with. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Tower Modification Certification Rev.1**

**Project:** Verizon Branford SW CT  
850 West Main Street, Branford, CT 06405

**Tower Owner:** Crown Castle  
8 Parkmeadow Drive, Pittsford, NY 14534

**Engineer:** Crown Castle  
8 Parkmeadow Drive, Pittsford, NY 14534

**Centek Project No.:** 15003.068

**CSC Exempt Mod Reference No.:** EM-VER-014-141112

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by Crown Castle (Crown Castle Project Number: BU Number 876322):

- Review of the Crown Castle Structural Modification Report dated 10/20/2014.
- Review of the Crown Castle Modification Drawings dated 10/21/2014.
- Review of Tower Engineering Professionals Modification Inspection Report dated 03/20/2015.
- Field observations by Centek Engineering personnel on 11/09/2015

The modification design prepared by Crown Castle demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

  
Carlo F. Centore, PE  
Principal - Structural
