Re: **EM-VER-015-130603 – Cellco Partnership d/b/a Verizon Wireless  
1330 Chopsey Hill Road, Bridgeport, Connecticut**

Dear Ms. Bachman:

On June 27, 2013, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 1330 Chopsey Hill Road in Bridgeport. The modification involved the replacement of certain antennas and the installation of additional coaxial cables.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the recommendations specified in the structural report were implemented. Attached is a Tower Modification Certification Letter verifying that these conditions have been satisfied. All construction associated with these modifications has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Tower Modification Certification**

**Project:** Verizon North Bridgeport  
1330 Chopsey Hill Road (1000 Trumbull Avenue), Bridgeport, CT

**Tower Owner:** Global Tower Partners LLC  
750 Park of Commerce, Suite 300, Boca Raton, FL

**Engineer:** Glenmartin  
1604 Business Loop 70 W. Avenue, Columbia, MO

**Centek Project No.:** 14055.018

Dear Mr. Gauger,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by Glenmartin (Glenmartin Job Number: CT-5035, Tartaglia):

- Review of the Glenmartin Structural Analysis dated 04/05/2013.
- Review of the Glenmartin Modification Drawings T-1,N-1,N-2,N-3 and S-1 thru S-3 dated 02/22/2013.
- Review of the Glenmartin Close-Out Report dated 08/26/2013.
- Field observations by Centek Engineering personnel on 09/24/2014 of the completed modifications.

The modification design prepared by Glenmartin demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE  
Senior Project Manager
