Re: Exempt Modification and Tower Sharing Conditions and Notification of
Completion, 4th Quarter 2021

Dear Ms. Bachman:

On March 8, 2023, the Connecticut Siting Council (the "Council") notified The United Illuminating Company ("UI") that an audit of the energy exempt modifications identified a deficiency in written notification of completion of construction in connection with EM-UI-015-191216e, concerning 40 Poland Street (Ash Creek Substation) in Bridgeport.

The Company has not completed the project that was discussed in the exempt modification notice and the Company has no plans to undertake the project. If the Company later decides that the project is needed, it will file another notice of exempt modification with the Council. The Company apologizes for failing to update the Council sooner about this change.

An original and fifteen (15) copies of this filing will be mailed via first class mail to the Council.

Should the Council have any questions regarding this filing, please do not hesitate to contact me.

Very truly yours,

Bruce L. McDermott
