Project Description: *Remove (9) Antennas and (1) Raycap from an existing 168'-6" Monopole, modify Antenna Platform Mount and install (12) Antennas and (3) CBRS Radios.*

To the best of my information, knowledge and belief, no Special Inspections were required for the Verizon Wireless Antenna Amendment installation. A visual inspection from post construction photos of the installation appears to have no major discrepancies.

To the best of my information, knowledge and belief, the completed Verizon Wireless Antenna Amendment substantially conforms to the following:

1. Construction Drawings by TEP, Rev 1, dated 9/29/2021.
2. Structural Analysis prepared by Morrison Hershfield, dated 6/15/2021.
3. As-Built Construction Drawings by KMM Telecommunications, dated 11/30/2022.
4. Post Construction Photos prepared by KMM Telecommunications, dated 11/23/2022.
5. City of Bristol Building Permit #: B-22-468.

Based upon the aforementioned, the complete Verizon Wireless installation is in apparent conformance with the design documents and have been seemingly satisfactorily completed.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,  
Special Inspector
