Re: **EM-VER-017-140114 – Cellco Partnership d/b/a Verizon Wireless
371 Terryville Avenue, Bristol, Connecticut**

Dear Ms. Bachman:

On February 7, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 371 Terryville Avenue in Bristol, Connecticut. The modifications involved the replacement of certain antennas and the installation of remote radio heads and a new fiber optic antenna cable.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the modifications referenced in the structural report were completed. Attached is a Professional Engineer's Certification Letter verifying that the tower and foundation modifications were installed in accordance with the Structural Analysis and all construction activity has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Kenneth C. Baldwin".

Re: Existing Telecommunications Facility Tower Certification Letter

Project: Verizon Bristol West 2
371 Terryville Avenue
Bristol, CT

Tower Owner: Crown Castle

Engineer: GPD Group
520 South Main Street, Suite 2531
Akron, OH

Centek Project No.: 14055.025

CSC Exempt Mod Reference No.: EM-VER-017-140114

Dear Mr. Parks,

We are providing this "Existing Telecommunications Facility Tower Certification Letter" with regard to the antenna upgrade by Verizon Wireless at the above referenced project.

The following are the basis for substantiating compliance with the GPD Group structural analysis report (GPD Project No. 2013723.01.27074.04) dated November 19, 2013:

- Review of the GPD Group structural analysis report dated 11/19/2013.
- Field observations by Centek personnel of the coax installation on 05/04/2015 which determined all coax lines were installed in general compliance with the recommendations of the structural analysis report prepared by GPD Group on 11/19/2013.

The structural analysis prepared by GPD Group demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the referenced structural analysis.

Sincerely,

Carlo F. Centore, PE
Principal ~ Structural Engineer
