RE: Springwich Cellular Limited Partnership notice of intent to modify existing telecommunications towers and associated equipment owned by Southern New England Telephone Company located off Willis Street (South Mountain) in Bristol, Connecticut.

Dear Attorney Tyrrell:

At a public meeting held on June 29, 1993, the Connecticut Siting Council acknowledged your notice of intent to modify existing telecommunications towers and associated equipment located off Willis Street (South Mountain) in Bristol, Connecticut, pursuant to Section 16-50j-73 of the Regulations of Connecticut State Agencies (RSA).

As proposed in your notice dated June 17, 1993, the modifications are in compliance with the exemption criteria specified in RSA 16-50j-72 for changes to an existing facility site that do not increase the tower height, extend the boundaries of the tower site, increase noise levels at the tower site boundary by 6 decibels, and increase the total radio frequency electromagnetic radiation power density measured at the tower site boundary to or above the standard adopted by the State Department of Environmental Protection pursuant to Section 22a-162 of the Connecticut General Statutes.

The Council is pleased to note that the shared use of an existing tower serves the Council's long-term goal of protecting the public interest by avoiding proliferation of additional tower structures.

Very truly yours,

  
Mortimer A. Gelston  
Chairman
