Melanie A. Bachman, Esq. Executive Director/Staff Attorney Connecticut Siting Council 10 Franklin Square New Britain, CT 06051

Re: EM-VER-019-160801 – Cellco Partnership d/b/a Verizon Wireless 100 Tatnic Hill Road, Brooklyn, Connecticut

Dear Ms. Bachman:

On August 23, 2016, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its existing telecommunications facility at 100 Tatnic Hill Road in Brooklyn, Connecticut. The modifications involved the replacement of antennas and the installation of new remote radio heads.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to that filing. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed in accordance with the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Mr. Tim Parks Verizon Wireless 99 East River Drive East Hartford, CT 06108

RE: Tower Modification Certification

Project:

Verizon Brooklyn CT

100 Tatnic Hill Road (aka 130 Tatnic Hill Road), Brooklyn, CT

Tower Owner: SBA Network Services, Inc.

Engineer:

FDH Engineering Inc.

APT Project No.:

CT1415910 Brooklyn

CSC Exempt Mod Reference No.: EM-VER-019-160801

Dear Mr. Parks,

All-Points Technology Corporation, P.C. (APT) is providing this 'Tower Modification Certification' with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by FDH Engineering Inc.:

- Review of FDH Engineering Incorporation's Structural Analysis (FDH project #14257O1400) dated 3/27/14;
- Field Observations by APT personnel on 3/9/17 of the completed work which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The structural analysis prepared by FDH Engineering Inc. demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

All-Points Technology Corporation, P.C.

Robert E. Adair, P.E.

Principal

ALL-POINTS TECHNOLOGY CORPORATION, P.C.
