Re: **EM-VER-023-220425 – Cellco Partnership d/b/a Verizon Wireless  
Telecommunications Facility, 540 Cherry Brook Road, Canton, Connecticut**

**Completion of Construction – North Canton**

Dear Attorney Bachman:

The purpose of this letter is to notify the Siting Council that construction activity associated with the above-referenced facility modification has been completed.

As required by the Council's approval, attached is a letter from Colliers Engineering & Design dated May 1, 2024, verifying that the facility modifications were completed in accordance with the March 1, 2022, Mount Analysis Report prepared by Maser Consulting. Photographs of the completed improvements are also attached.

If you have any questions or need any additional information regarding this facility, please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Verizon: 10112268 – North Canton CT**

540 Cherry Brook Road  
Canton, Connecticut 06019  
CED Project No. #: 21777297

Dear Mr. Gavaletz,

At the request of Verizon, Colliers Engineering & Design has reviewed the post construction photographs, received from KMM Telecommunications dated March 25, 2024 of the completed Verizon antenna upgrade at the above referenced telecommunications facility. The antenna upgrade was completed by KMM Telecommunications. Upon reviewing the aforementioned photographs, it has been determined that the equipment has been installed in accordance with the approved Rev 2 Antenna Mount Analysis Report prepared by Maser Consulting Connecticut (Now Colliers Engineering & Design) dated March 1, 2022

Variations from the construction drawings include the following:

Photo Number	Remarks	Findings
53 (Refer to Appendix A)	Position 1 radio installed in front of the mount pipe instead of behind	Negligible

The above difference is considered negligible and is considered to be in accordance with all state and local requirements. This evaluation of the as-built condition is based solely on the provided as-built photographs. This evaluation is only valid for the linear and discrete appurtenances listed in the referenced documents. Any equipment that has been installed after the as-built photographs were taken is not part of this evaluation. Further, any equipment that has been installed, but was not captured in the provided as-built photographs, is not part of this evaluation. Colliers Engineering & Design reserves the right to amend this evaluation if more information is provided.

If you have any questions or comments, or require additional information, please do not hesitate to contact me.

Very truly yours,

Colliers Engineering & Design, Architecture, Landscaping Architecture, Surveying, CT, P.C.
