Final Report of Special Inspections

Project: CTNH504A (T-Mobile Sprint Keep Project)
ATC Id: 370624
Location: 1338 Highland Ave., Cheshire, CT
Owner: T-Mobile Northeast LLC

Date: February 28, 2024

Engineer of Record: Derek J. Creaser, P.E.
Centerline Communications, LLC.

To the best of my information, knowledge and belief, the Special Inspections required for this project, and itemized in the *Statement of Special Inspections* submitted for permit, have been performed and all discovered discrepancies have been reported and resolved.

Representatives of Centerline Communications, LLC performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on January 11, 2024.

Based on my knowledge, information, and belief the T-Mobile Installation substantially conforms to the approved plans, IBC 2015, 2018 CT State Building Code, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-G), and the following:

1. Final Construction Drawings dated 10/05/22, prepared by Kimley Horn.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications.

This report does not include inspections for the findings of the global stability analysis and modifications to the structure. Those modification inspections, if required, are strictly the responsibility of the tower owner & general contractor performing such design and installation.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector
