Re: **TS-VER-027-151228 – Cellco Partnership d/b/a Verizon Wireless
21 East Main Street, Clinton, Connecticut**

Dear Ms. Bachman:

On February 19, 2016, the Siting Council acknowledged receipt of Cellco's notice of intent to install its telecommunications antennas and related equipment at 21 East Main Street in Clinton, Connecticut.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to the tower share filing. Attached is a Professional Engineer's evaluation letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: TS-VER-027-151228- Tower Modification Certification

Project: Verizon Clinton 2 CT
21 East Main Street, Clinton CT 06413

Tower Owner: Comcast of Connecticut f/k/a Storer Communications of Clinton ("Storer")

Engineer: GPD Engineering and Architecture Professional Corporation.

Nexius Project No.: 311653

**GPD Engineering and Architecture
Professional Corporation Project No.:** 2015783.11201.01 Rev 1

Dear Ms. Jamieson,

Nexius Solutions Inc. is providing this "Tower Modification Certification" regarding the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by GPD Engineering and Architecture:

- Review of GPD Engineering and Architecture Structural Analysis and modification drawings (project # 2015703.20) dated 12/23/15.
- Field Observations by Nexius Solutions Inc. personnel on 11/01/17 of the completed modifications which determined all modifications were installed in general compliance with the recommendation of the aforementioned structural analysis.

The structural analysis and tower modifications prepared by GPD Engineering and Architecture demonstrates the tower was modified to pass. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above.

Sincerely,
Nexius Solutions Inc.

Jimmy Chendana, P.E.
Structural Engineer
