Re: **EM-VER-027-151117 – Cellco Partnership d/b/a Verizon Wireless
46 Meadow Road, Clinton, Connecticut**

Dear Ms. Bachman:

On December 7, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 46 Meadow Road in Clinton, Connecticut. Cellco's modifications involved the replacement of antennas and remote radio heads.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to the exempt modification filing. Attached is a Professional Engineer's evaluation letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: Tower Modification Certification

Project: Verizon Shelton 2 CT
70 Platt Rd. Shelton, CT 06484

Tower Owner: Crown Castle

Engineer: On-Air Engineering, LLC

APT Project No.: CT141PCS9510 Shelton 2

CSC Exempt Mod Reference No.: EM-VER-126-151207

Dear Mr. Parks,

All-Points Technology Corporation, P.C. (APT) is providing this 'Tower Modification Certification' with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by On-Air Engineering, LLC:

- Review of Jacobs Engineering Group, Inc.'s Structural Analysis (Jacobs project #1121760) dated 11/4/15;
- Review of On-Air Engineering, LLC's AWS Site Modification drawing dated 1/26/16; and
- Field Observations by APT personnel on 5/3/17 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The structural analysis prepared by Jacobs Engineering Group, Inc. demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,
All-Points Technology Corporation, P.C.

Robert E. Adair, P.E.
Principal
