

Final Report of Special Inspections

Project: *Colchester North Central – 10070973*
Location: *315 Old Hartford Roday, Colchester, CT 06415*
Owner: *AT&T Mobility*
Owner's Address: *550 Conchituate Road, Suite 550 13 & 14
Framingham, MA 01701*
Architect of Record:
Structural Engineer of Record: *Petros E. Tsoukalas, PE*

To the best of my information, knowledge and belief, the Special Inspections required for this project, and itemized in the *Statement of Special Inspections* submitted for permit, have been performed and all discovered discrepancies have been reported and resolved other than the following:

Comments: This evaluation of the as-built condition is based solely on the provided as-built photographs and redlined drawings. All redlined construction changes are considered to be structurally insignificant and deemed acceptable.

This evaluation is only valid for the linear and discrete appurtenances listed in the referenced documents. Any equipment that has been installed after the as-built photographs were taken is not part of this evaluation. Further, any equipment that has been installed, but was not captured in the provided as-built photographs, is not part of this evaluation. Maser Consulting reserves the right to amend this evaluation if more information is provided.

(Attach continuation sheets if required to complete the description of corrections.)

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector

Subject: Construction Completion Letter

Carrier Designation: Site Name: CT5131

Engineering Firm Designation: B+T Group Project Number: 147916.001.01

Site Data: 439-455 Homestead Ave., Hartford, Hartford County, CT 06112
Latitude 41° 47' 1.61", Longitude -72° 42' 13.66"
Monopole

Dear Jason Blinkhorn,

B+T Group is pleased to submit this "Construction Completion Letter" regarding the above mentioned Monopole.

We reviewed the photographs of the telecommunications equipment installed on the Monopole, taken on February 13, 2021. Based on the photographs provided and the construction drawings by B+T Group dated October 30, 2019, this telecommunications site has the following antennas and associated equipment installed in three sectors on the Monopole.

- (1) New SitePro1- HRK12 Handrail Kit
- (2) New DMP65R-BU6DA Antennas
- (1) New DMP65R-BU8DA Antennas
- (3) New 4449 B5/B12 RRHs
- (3) New 8843 B2/B66A RRHs
- (1) New Raycap DC6
- (3) New 6630
- (1) New XMU03
- (1) New IDLE

The quantities and types of antennas and associated equipment from the photographs are in compliance, therefore, it is our opinion that the antennas and associated equipment were properly installed.

We at B+T Group appreciate the opportunity of providing our continuing professional services to you and Empire Telecom Wireless Services. If you have any questions or need further assistance on this or any other projects, please give us a call.

Construction Control Inspection Letter prepared by: Jennifer Tillson, E.I.

To Whom It May Concern,

Infinigy has conducted a post construction review of the above-mentioned site. Infinigy has prepared the drawings for the above-mentioned site and as such, we have conducted a final review of the proposed installation for the sole purpose to verify that the installation was completed in accordance with the site plans.

Based on our review of the Signed and Sealed Engineering Drawings for this site completed by Infinigy (Revision 0, Dated 02/25/19), contractor-provided As-Built Drawings & closeout photos, and a Post-Construction Mount Analysis completed by Maser Consulting (dated 2/23/21), it is the opinion of Infinigy that the site was built in general conformance with the site plans as prepared by Infinigy.

Please free to contact me at (518) 690-0790 if you have any questions or require additional information.

Sincerely,
Chris Warren, P.E.

To Whom It May Concern,

Infinigy has conducted a post construction review of the above-mentioned site. Infinigy has prepared the drawings for the above-mentioned site and as such, we have conducted a final review of the proposed installation for the sole purpose to verify that the installation was completed in accordance with the site plans.

Based on our review of the Signed and Sealed Engineering Drawings for this site completed by Infinigy (Revision 0, Dated 03/07/19), and contractor-provided As-Built Drawings & closeout photos, the following items deviate from the original site plans:

- GSM Cabinets, Power Plant and Battery Rack were removed and replaced with new Power Plant and Battery Rack at ground level.

The above deviations do not negatively affect the integrity of the project and therefore, it is the opinion of Infinigy that the site was built in general conformance with the site plans as prepared by Infinigy.

Please free to contact me at (518) 690-0790 if you have any questions or require additional information.

Sincerely,
Chris Warren, P.E.

Final Report of Special Inspections

Project: CT1078 (FA 10035063)

Location: 2 Larkin Drive, Middlebury, CT 06762

Owner: AT&T

Engineer of Record: Daniel P. Hamm, P.E.
Hudson Design Group, LLC.

To the best of my information, knowledge and belief, the Special Inspections required by Chapter 17 for the project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of Hudson Design Group LLC performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on February 22, 2021.

Based on my knowledge, information and belief the wireless installation substantially conforms to the approved plans, IBC 2015 with 2018 CT State Building Code Amendments, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-G), and the following:

1. Final Construction Drawings dated 06-11-2019, prepared by ComEX Consultants, entitled "Middlebury-2 Larkin DR."
2. Final Antenna Mount Analysis letter dated 05-05-2016, prepared by Centek.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications. This report does not include inspections for the findings of the global stability analysis and modifications to the structure. Those modification inspections, if required, are strictly the responsibility of the tower owner & general contractor performing such design and installation.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector
