Dear Robert Brodka,

I, Chad Tuttle, P.E., a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated March 10, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Will Edwards of Eastern Communications, Inc., dated March 6, 2023; and the construction drawings by Tectonic dated October 19, 2021; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the Town of Cromwell (last revised October 19, 2021) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2018 CT SBC and NEC 2017).

Furthermore, it is hereby noted that, at the direction of the Client, the Contractor deviated from the approved construction drawings by removing an additional OVP and cabling; and by installing a different OVP model.

In my professional opinion, all deviations from the drawings and specifications are minor in nature and will not prevent the project from functioning in compliance with the requirements of the Town of Cromwell and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office. Thank you.

Engineer's Certification of Completion prepared by: Bhree Barrett

Respectfully submitted by: MTS Engineering P.L.L.C.
