Re: **EM-VER-033-150928 – Cellco Partnership d/b/a Verizon Wireless**
160 West Street, Cromwell, Connecticut

Dear Ms. Bachman:

On October 26, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 160 West Street in Cromwell, Connecticut. The modifications involved the replacement of its antennas, installation of remote radio heads and fiber optic antenna cables.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter confirming that it has complied with the recommendations made in the structural report included with its filing. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Kenneth C. Baldwin".

Kenneth C. Baldwin

Re: Tower Modification Certification

Project: Verizon Cromwell
160 West Street, Cromwell, CT

Tower Owner: SBA Network Services, Inc.
5900 Broken Sound Parkway NW, Boca Raton, FL

Engineer: Velocitel, Inc. d.b.a. FDH Velocitel
6521 Meridien Drive, Raleigh, NC

Centek Project No.: 16003.004

CSC Exempt Mod Reference No.: EM-VER-033150928

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by Velocitel (FDH Velocitel Project Number: 15BXUI1400):

- Review of Velocitel Structural Analysis dated 08/13/2015.
- Field observations by Centek Engineering personnel on 04/27/16 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report prepared by Velocitel on 08/13/2015.

The modification design prepared by Velocitel demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE
Principal - Structural
