

Final Report of Special Inspections

Project: CT2133 (10034995)

Permit #22-2042

Location: Moses Mountain, Danbury, CT 06810

Owner: AT&T

Engineer of Record: *Daniel P. Hamm, P.E.*

TEP Northeast\TEP OPCO, LLC

To the best of my information, knowledge and belief, the Special Inspections required by Chapter 17 for the project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of TEP Northeast performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on January 25, 2023

Based on my knowledge, information and belief the wireless installation substantially conforms to the approved plans, IBC 2015 with 2018 CT State Building Code Amendments, Structural Standards for Antenna Supporting Structures and Antennas (EIA/TIA-222-H), and the following:

1. Final Construction Drawings dated 8/15/2022, prepared by TEP Northeast, entitled "5G NR RADIO, 5G NR 1SR CBAND, 4T4R. ANTENNA RETROFIT 2022 UPGRADE"
2. Final Mount Analysis dated 7/8/2022, prepared by TEP Northeast

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications. This report does not include inspections for the findings of the global stability analysis and modifications to the structure. Those modification inspections, if required, are strictly the responsibility of the tower owner & general contractor performing such design and installation.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector

Daniel P. Hamm, P.E.
