RE: **EM-CING-034-181011** – New Cingular Wireless PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 52 Stadley Rough Road, Danbury, Connecticut.

Dear Mr. Meyers:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on October 11, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified deficiencies in the Cover Letter submitted with the request. The last two lines of the first paragraph of the Cover Letter states that "AT&T now intends to replace three (3) Antennas, add three (9) Remote Radio Units, and add one (1) Surge Arrestor for its LTE upgrade. These Antennas and Remote Radio Units would be installed at the 140-foot level of the tower". These underlined data are inconsistent with the Site Plans and the Structural Analysis Report provided with the request.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Centerline Communications, LLC provide a Cover Letter with information that is consistent with the Site Plans and the Structural Analysis Report provided with the request, on or before November 23, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to November 23, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman  
Executive Director

MAB/FOC/IN

Enclosures: October 15, 2018 E-mail from City of Danbury

c: The Honorable Mark D. Boughton, Mayor, City of Danbury  
Sharon Calitro, Director of Planning & Zoning, City of Danbury

**Subject:** Notice of Exempt Mod/Site Number CT2312 52 Stadley Rough Road Danbury

Melanie - I am in receipt of the above referenced correspondence dated October 10th. Based on a cursory review of the materials including the site plan drawings, it appears that some work indicated in the transmittal letter is identified differently on the plans. Therefore, it is difficult to assess what components are being replaced/added and where on the pole. Considering the history of this telecommunications facility, we ask that the Siting Council obtain more detailed information regarding the antenna replacements, addition of remote radio units, addition of the surge arrestor, and their respective location on the pole.

Thank you

Sharon
