Re: **EM-VER-035-140507 – Cellco Partnership d/b/a Verizon Wireless
126 Ledge Road, Darien, Connecticut**

Dear Ms. Bachman:

On May 28, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 126 Ledge Road in Darien, Connecticut. The modifications involved the replacement of certain antennas and installation of remote radio heads and a fiber optic antenna cable.

As a condition of that acknowledgement, Cellco was required to provide the Council with a letter stating that the modifications referenced in the structural report were completed. Attached is a Professional Engineer's Certification Letter verifying that the tower and foundation modifications were installed. All construction associated with these modifications has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Tower Modification Certification

Project: Verizon Darien
126 Ledge Road, Darien, CT

Tower Owner: Crown Castle
46 Broadway, Albany, NY

Engineer: Tower Engineering Professionals
3703 Junction Blvd., Raleigh, NC

Centek Project No.: 14055.030

CSC Exempt Mod Reference No.: EM-VER-035-140507

Dear Mr. Parks,

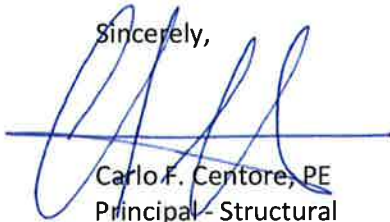

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by Tower Engineering Professionals (TEP Group Project Number: 25562.12516):

- Review of the Tower Engineering Professionals Structural Analysis dated 12/20/2013.
- Review of the Tower Engineering Professionals Modification Drawings T-1, N-1 thru N-4, and S-1 thru S-6 dated 12/20/2013.
- Review of the Tower Engineering Professionals Modification Inspection Report dated 05/12/2014.
- Field observations by Centek Engineering personnel on 05/21/2015 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report prepared by Tower Engineering Professionals on 12/20/2013.

The modification design prepared by Tower Engineering Professionals demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE
Principal - Structural
