RE: **EM-T-MOBILE-036-220928** – T-Mobile notice of intent to modify an existing telecommunications facility located at 15 Pent Road, Deep River, Connecticut.

Dear Peter Fales:

The Connecticut Siting Council (Council) in receipt of your May 26, 2023 correspondence notifying the Council of a change to the location of the generator.

Pursuant to Regulations of Connecticut State Agencies §16-50j-73, the Council hereby acknowledges notification of the change in the generator location and the new 8-foot by 12-foot concrete pad within the fenced compound.

This acknowledgment applies only to the project changes described in the May 26, 2023 correspondence.

The revised generator location and associated concrete pad is to be implemented as specified in the revised Construction Drawings prepared by Centerline Engineering Services, last revised May 26, 2023 and attached to the May 26, 2023 correspondence.

Thank you for your attention and cooperation.

Sincerely,

Melanie Bachman  
Executive Director

MAB/IN/laf

**Subject:** Inquiry on Design Change (Generator) // EM-T-MOBILE-036-220928 // TMOBILE // 15 Pent Road, Deep River CT

Good Afternoon,

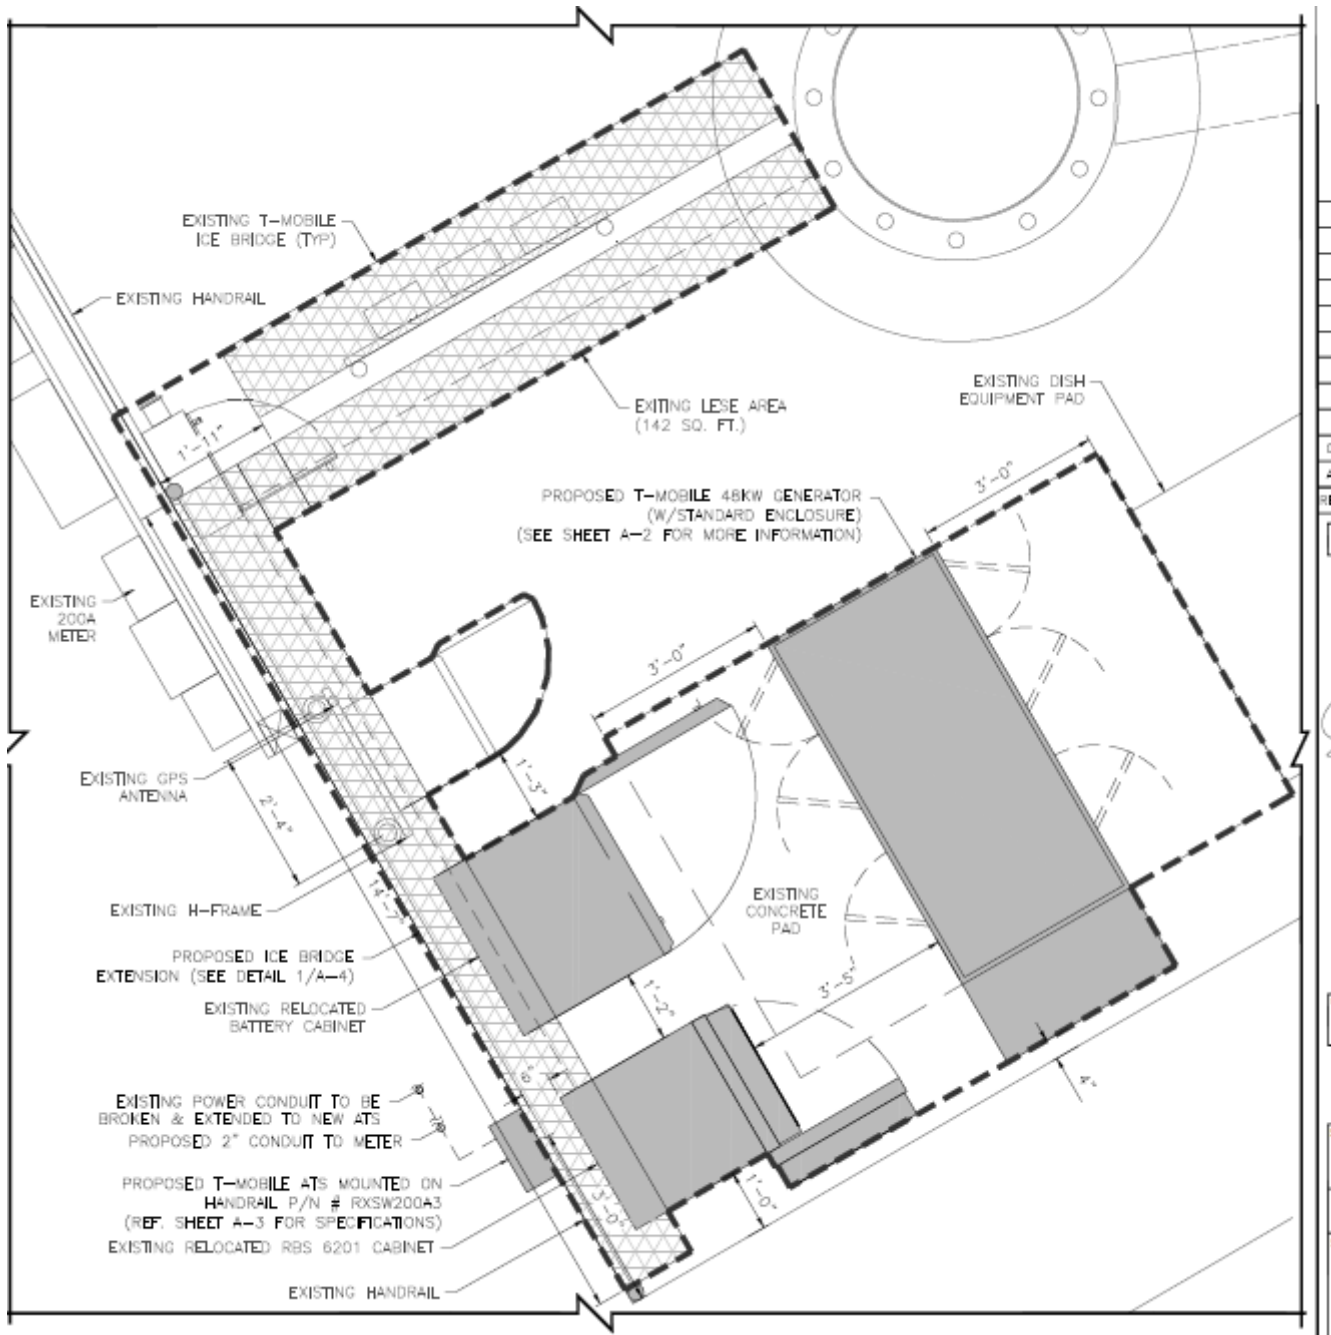

I am writing in regards to a TMO Exempt Mod that was approved back in October 2022. The SOW is to add a generator only. Since the Exempt Mod was issued by the CSC, there has been a change in the generator location due to some discussions between T-Mobile and Crown Castle (Tower Owner).

Can you please review and let us know the best steps to proceed with the generator location change? Does T-Mobile need to file a new Exempt Mod and close out the existing one. Or can the existing one be administratively approved?

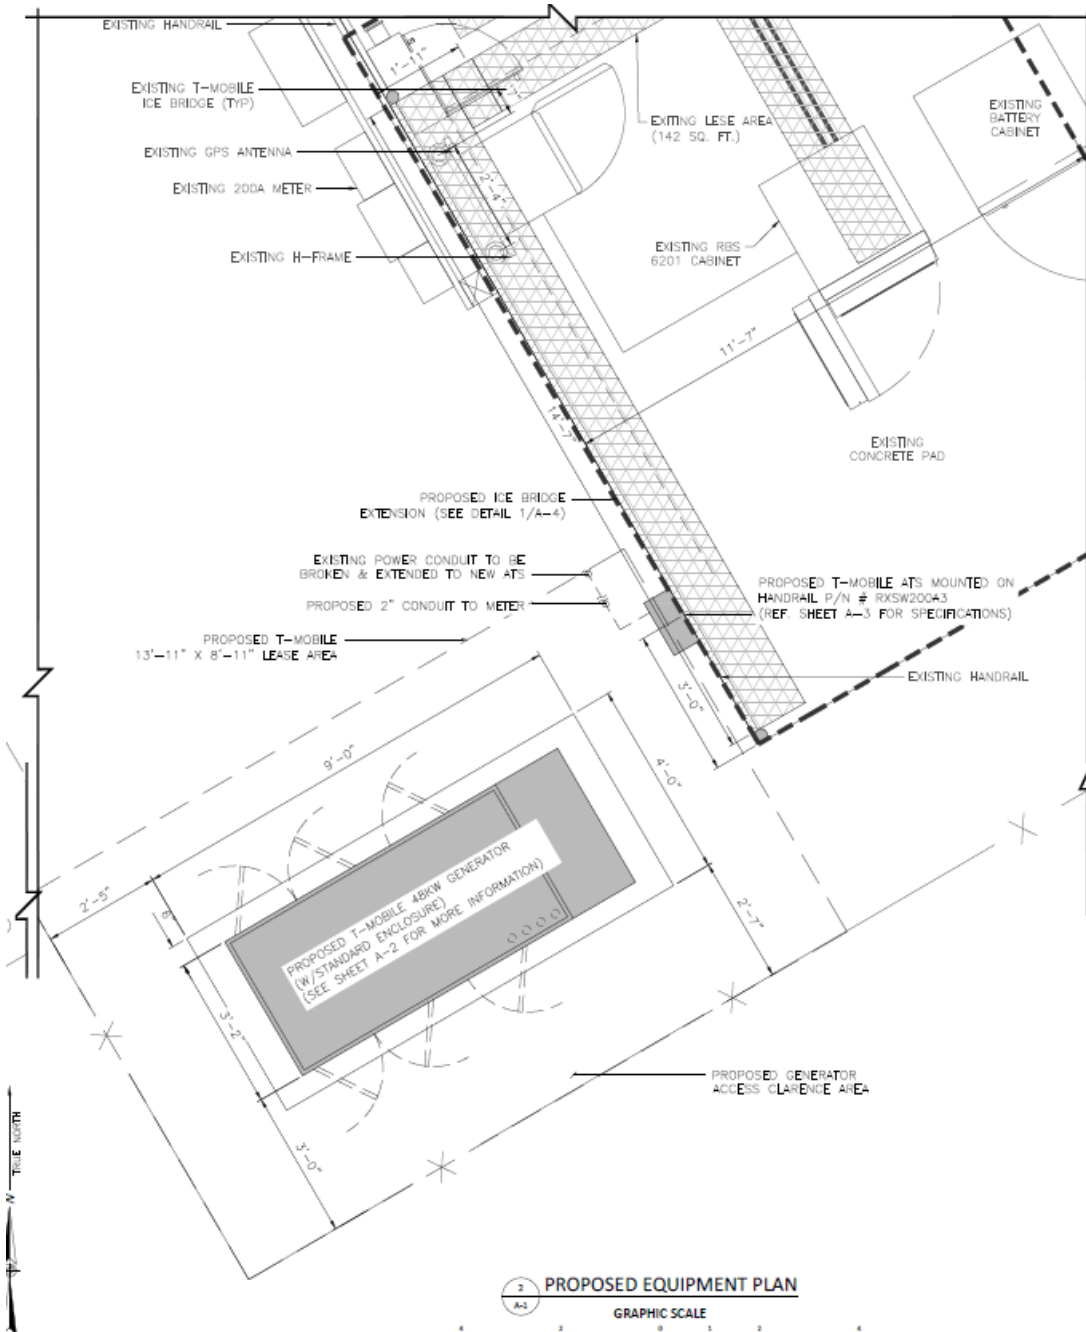

Please see location changes in screenshots below. New location is still within the existing compound.

**Original & CSC Approved Location:**

**New Location: See New Drawings attached as well.**
