Re: **TS-VER-036-140512 – Cellco Partnership d/b/a Verizon Wireless  
230 Winthrop Road, Deep River, Connecticut**

Dear Ms. Bachman:

Attached is a Tower Modification Certification Letter for the Winthrop Road tower verifying that the structural modifications required to accommodate Cellco's facility modifications have been completed. All other construction associated with the above-referenced tower share filing has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Existing Telecommunications Facility Tower Certification Letter**

**Project:** **Verizon Deep River West**  
220 Winthrop Road  
Deep River, CT

**Tower Owner:** **SBA Communications**

**Engineer:** **FDH Engineering**  
6521 Meridien Drive  
Raleigh, NC 27616

**Centek Project No.:** 15003.012

**CSC Exempt Mod Reference No.:** TS-VER-036-140512

Dear Mr. Gauger,

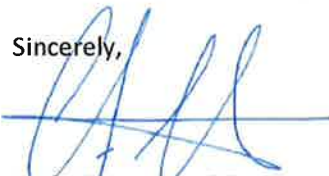

We are providing this "Existing Telecommunications Facility Tower Certification Letter" with regard to the antenna upgrade by Verizon Wireless at the above referenced project.

The following are the basis for substantiating compliance with the FDH Engineering structural analysis report (FDH Project No. 13SFRX1400 ) dated November 4, 2013:

- Review of the FDH structural analysis report dated 11/04/2013.
- Field observations by Centek personnel of the coax and RRH installation on 12/10/2014 which determined all coax lines and RRH's were installed in general compliance with the recommendations of the structural analysis report prepared by FDH Engineering on 11/04/2013.

The structural analysis prepared by FDH Engineering demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the referenced structural analysis.

Sincerely,

Carlo F. Centore, PE  
Principal ~ Structural Engineer
