Re: **EM-VER-040-130613 – Cellco Partnership d/b/a Verizon Wireless
56 Floydville Road, East Granby, Connecticut**

Dear Ms. Bachman:

On July 12, 2013, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 56 Floydville Road in East Granby. The modification involved the replacement of certain antennas.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the recommendations specified in the structural report were implemented. Attached is a Tower Modification Certification Letter verifying that these conditions have been satisfied. All construction associated with these modifications has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Kenneth C. Baldwin".

Re: Existing Telecommunications Facility Tower Certification Letter

Project: Verizon East Granby 2
56 Flordville Road
East Granby, CT

Tower Owner: SBA Communications

Engineer: FDH Engineering
6521 Meridien Drive
Raleigh, NC 27616

Centek Project No.: 14055.044

CSC Exempt Mod Reference No.: EM-VER-040-130613

Dear Mr. Gauger,

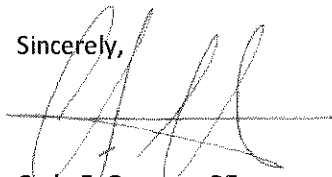

We are providing this "Existing Telecommunications Facility Tower Certification Letter" with regard to the antenna upgrade by Verizon Wireless at the above referenced project.

The following are the basis for substantiating compliance with the FDH Engineering structural analysis report (FDH Project No. 1332021400) dated May 17, 2013:

- Review of the FDH structural analysis report dated 05/17/2013.
- Field observations by Centek personnel of the coax, diplexer and TMA installation on 12/10/2014 which determined all coax lines, diplexers and TMA's were installed in general compliance with the recommendations of the structural analysis report prepared by FDH Engineering on 05/17/2013.

The structural analysis prepared by FDH Engineering demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the referenced structural analysis.

Sincerely,

Carlo F. Centore, PE
Principal ~ Structural Engineer
