RE: **EM-CING -040-180807** – AT&T notice of intent to modify an existing telecommunications facility located at 60 South Main Street, East Granby, Connecticut.

Dear Ms. Caulfield:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on August 7, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the structural analysis report provided with the above filing. The above-referenced request for exempt modification filing includes a structural analysis report dated July 10, 2018. Previous to that date, the Council acknowledged a Sprint exempt modification on May 31, 2017 with a structural report dated January 10, 2017.

The July 10, 2018 structural analysis report provided with the request for exempt modification does not account for the approved Sprint equipment. Please refer to Sprint's May 8, 2017 request for exempt modification for this facility (EM-Sprint-040-170511) available on the Council's website at the following link:

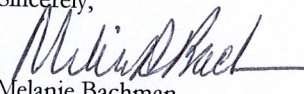

https://www.ct.gov/csc/lib/csc/ems/east_granby/somainst/sprint/em-sprint-040-170511_filing_southmainst.pdf

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Centerline Communications provide an updated structural analysis report accounting for Sprint's approved equipment, as well as any required mount modifications on or before September 18, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to September 18, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman
Executive Director
