Wireless Telecommunications Facility

Dear Crystal Cauthen,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated July 20, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built construction drawings certified by G. Drake of Eastern Communications, Inc., dated July 24, 2023; and the construction drawings by Tectonic dated August 9, 2021; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the Town of East Hampton (last revised August 9, 2021) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2018 CT SBC and 2017 NEC).

In my professional opinion, any minor deviations as noted in the certified As Built construction drawings are incidental and minor in nature, including the mount modification change, and will not prevent the project from functioning in compliance with the requirements of the Town of East Hampton and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office.

Engineer’s Certification of Completion prepared by: Bhree Barrett

Respectfully submitted by: MTS Engineering P.L.L.C.
