Dear Veronica Delia Chapman,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated April 8, 2024, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Siarhei Sarychau of Belazor Technologies, dated April 11, 2024; and the construction drawings by B+T Group dated January 5, 2023; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the Town of East Haven (last revised January 5, 2023) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2022 CTSBC/2021 IBC, 2022 CTSBC/2021 IMC and 2022 CTSBC/2020 NEC).

Furthermore, it is hereby noted that the Contractor did not install the stiff arms as shown in the construction drawings or in the Mount Replacement Analysis Report by Infinigy dated December 22, 2022, and this deviation has been approved by Infinigy.

In my professional opinion, any minor deviations from the drawings and specifications, including the deviation noted above, will not prevent the project from functioning in compliance with the requirements of the Town of East Haven and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office.
