Re: **EM-VER-044-140108 – Cellco Partnership d/b/a Verizon Wireless  
60 Commerce Street, East Haven, Connecticut**

Dear Ms. Bachman:

On February 4, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 60 Commerce Street in East Haven, Connecticut. The modifications involved the replacement of certain antennas, the installation of remote radio heads and the installation of a new fiber optic antenna cable.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that Cellco's installation complied with the recommendations in the Structural Analysis. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the modifications were completed as required.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Tower Modification Certification**

**Project:** Verizon Cosey Beach  
60 Commerce St, East Haven, CT

**Tower Owner:** SBA Communications Corporation  
8051 Congress Ave, Boca Rotan, FL

**Engineer:** FDH Engineering, Inc.  
6521 Meridien Dr., Raleigh, NC

**Centek Project No.:** 15003.042

**CSC Exempt Mod Reference No.:** EM-VER-044-140108

Dear Mr. Parks,

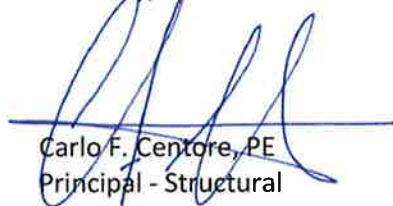

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by FDH dated 011/14/2013 (FDH Project Number 13SFRL1400):

- Review of FDH Structural Analysis dated 011/14/2013.
- Field observations by Centek Engineering personnel on 07/13/2015 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report FDH dated 11/14/13

The structural analysis by FDH dated 11/14/13 demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

  
Carlo F. Centore, PE  
Principal - Structural
