New Britain, CT 06051

Re: **EM-VER-045-231012 – Cellco Partnership d/b/a Verizon Wireless Telecommunications Facility, 2 Arbor Crossing, East Lyme, Connecticut**

### **Completion of Construction**

Dear Attorney Bachman:

The purpose of this letter is to notify the Siting Council that construction activity associated with the above-referenced facility modification has been completed.

As required by the Council's approval, attached is a letter from Centerline Communications dated March 11, 2024, verifying that the facility modifications were completed in accordance with the August 24, 2023, Mount Analysis Report prepared by Colliers Engineering and Design. A photograph of the completed improvements is also attached.

If you have any questions or need any additional information regarding this facility, please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

## Final Report of Special Inspections

**Site Name:** *East Lyme North CT* **Date:** *March 11, 2024*  
**Location Code:** *470457*  
**Fuze Id:** *17226100*  
**Project:** *RF Filter Add*  
**Address:** *2 Arbor Crossing, East Lyme, CT*  
**Owner:** *Verizon Wireless*

Engineer of Record: *Derek J. Creaser, P.E.*  
*Centerline Communications, LLC.*

To the best of my information, knowledge and belief, the Special Inspections required for this project, and itemized in the *Statement of Special Inspections* submitted for permit, have been performed and all discovered discrepancies have been reported and resolved.

Representatives of Centerline performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on March 07, 2024.

Based on my knowledge, information and belief, the Verizon Installation substantially conforms to the approved plans, IBC 2018, 2022 CT State Building Code, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-H), and the following:

1. Final Construction Drawings dated 10/06/23 by Centerline Communications.
2. Antenna Mount Analysis dated 08/24/23 by Colliers Engineering.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,  
Special Inspector

Derek Creaser, P.E.  
Director of A&E Services
