Re: Amendment to Exempt Modification EM-CING-049-070911 Enfield
(Sprint / Nextel)

Dear Chairman Caruso and Members of the Council:

Please accept this amendment to the above referenced Notice of Exempt Modification under which New Cingular Wireless PCS, LLC ("AT&T") is making UMTS modifications to the site. For overall operational efficiency for UMTS from this particular site, it has become necessary to install RXAIT equipment *at grade*. AT&T's RXAIT equipment will enable the antennas located at this site to meet the needs of both the UMTS and GSM technologies that AT&T utilizes at this time. The RXAIT units do not alter the approved frequencies, channels, or RF power density calculations, but in this case expansion of AT&T's concrete pad by approximately 15 square feet is required to support the outdoor cabinet that houses the RXAIT equipment. As such, we are filing this amended notice and are enclosing amended AT&T plans and RXAIT equipment specifications for your records.

Please feel free to call me at (860) 513-7636 with questions concerning this matter. Thank you for your consideration.

Sincerely,

Steven L. Levine
Real Estate Consultant

Model CAB-COS-OUT-33U

CEQ# 28442

Full Height Outdoor Cabinet

Sized for 3
sectors
including
triplexers

CCI's large outdoor cabinet can contain up to three sectors of cositing equipment including triplexers. It is a unibody constructed double walled cabinet with front and rear access, vented solar shield, and standard key locking front and rear doors. The cabinet is designed to be easily configured with different base and cooling options such as top mount fans or rear mounted air conditioning. An optional battery compartment can be located above the plinth. Plinths (bases) are tall enough to accommodate large cables.

Constructed of aluminum with internal stainless steel mounting rails and lifting hardware, the cabinet is highly weather resistant, designed to meet Bellcore standards

Features:

- Aluminum double wall construction
- Stainless steel rails
- Gasket sealed
- Bellcore rated
- Optional cooling
- Multiple plinth heights

Options	
Plinth (base)	4", 8", or 10"
Air conditioning	3000 to 8000 btu rear mount
Cooling Fan	Top mount
Battery storage	In base with ventilation
Heat exchanger	Top mount or back mount
Key access	Standard Key, pushbutton, or Telco Tool

Specifications	
Rail Height	58" (33U)
Height	64"
Width	24"
Depth	24"
Battery Module	14" height
Plinth	4", 8", or 10"
Mounting Rack	19" Width

Exploded view showing optional cooling
and battery compartment

Enfield, CT 06082-2997

Re: Telecommunications Facility – 188 Moody Road, Enfield

Dear Mr. Coppler:

In order to accommodate technological changes, implement Uniform Mobile Telecommunications System ("UMTS") capability, and enhance system performance in the State of Connecticut, New Cingular Wireless PCS, LLC ("AT&T") will be changing its equipment configuration at certain cell sites.

As required by Regulations of Connecticut State Agencies ("R.C.S.A.") Section 16-50j-73, the Connecticut Siting Council has been notified of the changes and will review AT&T's proposal. Please accept this letter as notification under Section 16-50j-73 of construction which constitutes an exempt modification pursuant to R.C.S.A. Section 16-50j-72(b)(2).

The accompanying letter to the Siting Council fully describes AT&T's proposal for the referenced cell site. However, if you have any questions or require any further information on our plans or the Siting Council's procedures, please call me at (860) 513-7636 or Mr. Derek Phelps, Executive Director, Connecticut Siting Council at (860) 827-2935.

Sincerely,
