Dear Jace Raab,

I, Chad Tuttle, P.E., a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the client, last dated February 9, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Greg Marsh of Site Wireless Inc, dated March 21, 2023; and the construction drawings by Infinigy dated August 17, 2022; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the Town of Enfield (last revised August 17, 2022) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2018 CT State Building Code and NEC 2017).

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the Town of Enfield and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office. Thank you.
