AT&T Site Name: CT2128 – Fairfield Greenfield Hill
(LTE 3C, 4C, 5C)
Site Address: 3965 Congress Street
Fairfield, CT 06824

To Whom It May Concern:

In accordance with the requirements of the 2018 Connecticut State Building Code, Dewberry Engineers Inc. (Dewberry) has reviewed the completed construction activities at the above referenced project to verify they were completed in general conformance with the requirements of the construction and structural related documents.

Dewberry referenced the following:

- Construction Drawings Rev. 1 by Dewberry Engineers Inc. (Dated May 1, 2019)
- Tower Structural Analysis Report by Dewberry Engineers Inc. (Dated April 26, 2019)
- Mount Analysis by B+T Group (Dated February 8, 2019)
- As-Built Construction Drawings & photos of completed construction activities provided to Dewberry by Qualtek Wireless

Based on the information and photos provided, it appears that the project has been constructed in general conformance with the applicable plans and specifications, other than the approved exceptions noted below:

- Proposed DC12 installed within shelter on existing FIF rack along with proposed fiber management tray.
- (24) runs of telco flex were installed within shelter between DC12 & existing converter shelf, instead of (12) runs specified on Construction Drawings.

If you have any questions, please do not hesitate to contact Dewberry Engineers Inc.

Sincerely,
Dewberry Engineers Inc.

Benjamin Revette, P.E.
Associate Vice President
