Re: **EM-VER-052-140325 – Cellco Partnership d/b/a Verizon Wireless
130 Birdseye Road, Farmington, Connecticut**

Dear Ms. Bachman:

On April 23, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 130 Birdseye Road in Farmington, Connecticut. The modifications involved the replacement of certain antennas and installation of remote radio heads and a fiber optic antenna cable.

As a condition of that acknowledgement, Cellco was required to provide the Council with a letter stating that the modifications referenced in the structural report were completed. Attached is a Professional Engineer's Certification Letter verifying that the tower and foundation modifications were installed. All construction associated with these modifications has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Tower Modification Certification

Project: Verizon New Britain 5
130 Birdseye Road, Farmington, CT

Tower Owner: Crown Castle
46 Broadway, Albany, NY

Engineer: B&T Group
1717 S. Boulder, Suite 300, Tulsa, OK

Centek Project No.: 14055.041

CSC Exempt Mod Reference No.: EM-VER-052-140325

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by B&T Group (B&T Group Project Number: 77969.011.01):

- Review of the B&T Group Structural Analysis dated 02/10/2014.
- Review of the B&T Group Modification Drawings S1 thru S7 and D1 dated 02/10/2014.
- Review of the Tower Engineering Professionals Modification Inspection Report dated 11/18/2014.
- Field observations by Centek Engineering personnel on 06/29/2015 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report prepared by B&T Group on 02/10/2014.

The modification design prepared by B&T Group demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE
Principal - Structural
