Subject: WVIT NBC Connecticut final Post modification

Hey,

We have completed our modification for our Tv tower, we would like to close this project out with the state of Connecticut.

Thanks,

Ref: 1057' Steel Height Guyed Tower WVIT
Stainless Engineering Project No.: 258124

Dear Mr. MacLeod,

All proposed equipment and tower and foundation modifications have been installed in accordance with Stainless Erection Drawings 258114 Revision A and 258122 Revision A dated 9/11/2018 and 5/19/2020, respectively.

The tower and foundations were also evaluated using the as-built guy tensions as measured on 10/31/2020 and the following parameters. Results of the analysis are presented in Stainless Report 258124 dated 2/20/2021.

- Risk Category II
- 125 mph ultimate wind speed with no ice
- 50 mph nominal wind speed with 1" design ice thickness
- Exposure Category B
- Topography Category 5 (flat topped hill)
- Earthquake Site Class D with $S_s = 0.18$

The tower and foundations are adequate to resist the tower loading as listed in the Report for the analysis parameters listed above in accordance with ANSI/TIA 222-G-2005, Structural Standard for Antenna Supporting Structures and Antennas, including Addenda 1 & 2, dated 2007 and 2009 respectively.

Should you require additional information, please do not hesitate to contact our office.

Sincerely:

RE: Exempt Modification and Tower Share Conditions and Notification of Completion, 1st Quarter 2018

Dear Mr. Flores:

The Connecticut Siting Council (Council) acknowledges modifications to telecommunications facilities that satisfy the exemption criteria under Regulations of Connecticut State Agencies §16-50j-72. The Council also approves requests for shared use of existing telecommunications facilities that satisfy the criteria under Connecticut General Statutes §16-50aa and Regulations of Connecticut State Agencies §16-50j-89. The Council routinely imposes standard conditions in acknowledgments of exempt modifications and approvals of tower share requests, including a requirement that notification be provided to the Council upon completion of construction. The Council may also add site-specific conditions in acknowledgments of exempt modifications and approvals of tower share requests that require the requesting entities to provide written confirmation to the Council that the conditions have been met.

Council staff has conducted an audit of the exempt modifications and tower share decisions from January 1, 2018 through March 31, 2018, and has identified deficiencies in written notification of completion of construction and/or written notification of compliance with site-specific conditions. Attached please find a list of exempt modifications and tower share requests that are currently not in compliance with the conditions imposed by the Council.

The Council hereby requests evidence of compliance on these matters before the close of business on June 15, 2019. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to June 15, 2019.

If you have any questions or concerns, please call the Council office at 860-827-2935.

Thank you for your attention to this matter.

Sincerely,

Melanie Bachman
Executive Director
