My apologies I attached the incorrect document.

Please find the attached FCCA.

This should finalize the CSC requirements. Please feel free to reach out if anything else is required

Thank you,

Terrance Pennell Jr.

To whom it may concern,

We have completed the work at the subjected location as of 10/15/2020

Attached is the latest communication with the BD, the CCA letter and the CSC letter.

Please advise if you have what you need to close this letter out.

Thank you,

Terrance Pennell Jr.

Final Report of Special Inspections

Project: CT1061 (FA 10035037)

Location: 82 Lovely Street, Unionville, CT 06085

Owner: AT&T

Engineer of Record: Daniel P. Hamm, P.E.

Hudson Design Group, LLC.

To the best of my information, knowledge and belief, the Special Inspections required by Chapter 17 for the project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of Hudson Design Group LLC performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on October 7, 2020.

Based on my knowledge, information and belief the wireless installation substantially conforms to the approved plans, IBC 2015 with 2018 CT State Building Code Amendments, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-G), and the following:

1. Final Construction Drawings dated 06/15/2020, prepared by Hudson Design Group LLC, entitled "Unionville SBC Co."
2. Final Mount Analysis dated 02/03/2020, prepared by Hudson Design Group LLC.
3. Final Structural Analysis dated 03/10/2020, prepared by Malouf Engineering International Inc.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications. This report does not include inspections for the findings of the global stability analysis and modifications to the structure. Those modification inspections, if required, are strictly the responsibility of the tower Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector

Daniel P. Hamm, P.E.
