Re: EM-Pocket-054-080917, 175 Dickinson Road, Glastonbury, Connecticut

Dear Ms. Roberts:

Please be advised that this office represents Youghiogheny Communications-Northeast, LLC, doing business as Pocket Communications ("Pocket"). Pocket received approval for the above-referenced exempt modification October 6, 2008. That approval required that Pocket's coaxial cable be installed internally in the monopole's shaft. The enclosed photograph demonstrates that this requirement has been met. I assume that this information should satisfy the Council's approval for this application. Please let me know if you have any questions.

Respectfully Submitted,

C. L. L.

Carrie L. Larson
