Re: **EM-VER-054-210603 – Cellco Partnership d/b/a Verizon Wireless  
Telecommunications Facility, 2577 Main Street, Glastonbury, Connecticut**

### **Completion of Construction**

Dear Ms. Bachman:

The purpose of this letter is to notify the Siting Council that construction activity associated with the above-referenced Cellco Partnership d/b/a Verizon Wireless facility has been completed.

As required by the Council's EM-VER-054-210603 approval, attached is a letter from Colliers Engineering & Design dated April 11, 2022, verifying that Cellco's facility modifications were completed in accordance with the March 10, 2021 Mount Analysis.

If you have any questions or need any additional information regarding this facility, please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

To Whom It May Concern,

Colliers Engineering & Design has reviewed the post construction photographs, received from KMM Telecommunications dated March 02, 2022, of the completed antenna upgrade and mount modification at the above referenced telecommunications facility. The antenna upgrade was completed by Verizon. Upon reviewing the aforementioned photographs, it has been determined that the equipment has been installed in accordance with the approved documents referenced below.

- Mount Analysis prepared by Maser Consulting dated March 10, 2021.
- Construction Drawings prepared by All Points Technology Corporation dated February 19, 2021.
- Post Modification Inspection Report dated March 4, 2022.
- As-built photos provided by KMM Telecommunications dated March 2, 2022.

The below variations from the referenced documents were noted and determined to be acceptable.

- Proposed v-bracing was installed 3'-3" from end of the proposed face horizontals instead of 2'-6".

This evaluation of the as-built condition is based solely on the provided post construction photographs. This evaluation is only valid for the linear and discrete appurtenances listed in the referenced documents. Any equipment that has been installed after the as-built photographs were taken is not part of this evaluation. Further, any equipment that has been installed, but was not captured in the provided as-built photographs, is not part of this evaluation. Colliers Engineering & Design reserves the right to amend this evaluation if more information is provided.

If you have any questions, comments, or require additional information, please do not hesitate to contact me.

Very truly yours,

Colliers Engineering & Design CT, P.C.
