Re: **EM-VER-054-150717 – Cellco Partnership d/b/a Verizon Wireless  
2577 Main Street, Glastonbury, Connecticut**

Dear Ms. Bachman:

On August 10, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 2577 Main Street in Glastonbury, Connecticut. The modifications involved the replacement of antennas and installation of remote radio heads.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to that filing. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**Re: Tower Modification Certification**

**Project:** Verizon Glastonbury W  
2577 Main Street, Glastonbury, CT

**Tower Owner:** SBA Communications  
8051 Congress Avenue, Boca Raton, FL

**Engineer:** FDH Engineering  
6521 Meridien Drive, Raleigh, NC

**Centek Project No.:** 16003.19

**CSC Exempt Mod Reference No.:** EM-VER-054-150717

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the Structural Analysis prepared by FDH (PJF Project Number: FDH Project Number 15BRLU1400):

- Review of the FDH Structural Analysis dated 06/10/2015.
- Field observations by Centek Engineering personnel on 07/26/16 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report prepared FDH on 06/10/2015.

The modification design prepared by FDH demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE  
Principal - Structural
