RE: **EM-VER-054-210618** - notice of intent to modify an existing telecommunications facility located at 58 Montano Road, Glastonbury, Connecticut.

Dear Attorney Baldwin:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on June 18, 2021.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the request. The radio frequency power density information provided in Attachment 3 of the filing does not include complete information and is, at a minimum, missing the information for the proposed Samsung MT6407-77A antennas.

The Council recommends that Robinson & Cole provide complete radio frequency power density information for Verizon Wireless for this facility on or before August 13, 2021. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to August 13, 2021. **Please provide an electronic version and one hard copy of the requested information for the incomplete exempt modification to be rendered complete and processed. Please include the Council's exempt modification identification number referenced above with the submittal.**

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

s/ Melanie A. Bachman
